U. S. BUSINESS CONDITION SOLID

Henry Ford Says U. S. Business Is Solid As A Rock

Pays Visit To President Coolidge At White House This Morning

SAYS PROHIBITION IS HERE TO STAY

Alcohol Is Not Good For Anybody, He Declares In Interview

(BULLETIN)
(International News Service)

WASHINGTON, Feb. 9.—Business conditions in America are "as solid as a rock", Henry Ford declared today after a visit with President Coolidge at the White House. He called to pay his respects to the President.

Ford looks for no dimunition of industrial prosperity in the near future.

Prohibition Here to Stay

He declared that prohibition "ought to be here to stay". "Alcohol is not good for anybody", he asserted.

Ford leaves this afternoon to visit Thomas A. Edison, who will be 80 years old Friday.

BLOC LEADERS PREDICT VICTORY

Senate To Vote On Issue Friday; House Members Take Up Bill Today

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Feb. 9.—Confident that President Coolidge will sign the McNary-Haugen bill, farm relief forces extended their battle lines along the entire congressional front today, determined to settle the four-year-old issue within a week.

With the senate engaged in sporadic debate on the measure under an agreement to vote on Friday, the house also took up the bill. Farm bloc leaders claimed a clear majority in both houses.

Takes Up Issue

Rep. Haugen (R) of Iowa, co-author of the bill, took issue with the prediction of Senator Fess (R) of Ohio that Mr. Coolidge would veto the bill.

"I've talked farm relief with the president many times," said Haugen. "I believe we have removed all of the objectionable features of the past bills and I think he will accept the verdict of congress."

The next presidential campaign appeared certain to be injected into final debate on the bill as a result of the last-minute plea of Ex-Governor Frank O. Lowden of Illinois, for the equlization fee. Opponents of the bill declared that Lowden's declara-

LONDON, Feb. 9.—Several thousand Cantonese troops have mutinied at Nanchang, killing their officers and looting the city, according to a Central News report from Shanghai.

Renew Shanghai Drive

SHANGHAI, Feb. 9.—The Cantonese armies today renewed their drive toward Shanghai.

Both sides were rushing large bodies of reinforcements to their lines and the heaviest fighting of the present campaign was reported in the vicinity of Lanchi and Yenchow.

A message from Hankow said the Cantonese were despatching fresh troops from Kiangsi and Szechuen provinces to the aid of their armies in Chekiang. It was estimated that more than 10,000 of these troops were being sent in commandeered foreign Chinese and foreign steam ships.

General Sun Chuan-Fang is recruiting 3,000 fresh soldiers in Shanghai. So far Sun has not given ground, despite the severity of the fighting.

She has the role of "Mitzi" in "The Wedding March" written, directed and played in by Eric Von Stroheim.

HARRISBURG, Pa., Feb. 9.—New Castle can retain a unit in the National Guard of Pennsylvania if it so desires.

Adjutant General Frank D. Beary on Tuesday afternoon offered the city a unit of the Mounted Engineers, an organization of which there is but one other unit in Pennsylvania.

While this would have no effect upon the transfer of Troop A, 104th Cavalry, it would mean that New Castle would still have a troop of men, 32 horses and equipment attendant to an engineer organization.

The one difference would be that

Five Hundred Delegates To Attend State Convention In New Castle

PLAN HEADQUARTERS AT THE CASTLETON

At the annual convention of the Pennsylvania State Outdoor advertising association held at Reading a few days ago, the representatives voted to hold their next convention in New Castle the last Monday of January 1928.

This convention will mean that upwards of 500 of the foremost advertising men of this state and many of the National advertisers themselves will be in this city for several days.

Along with the advertising representatives will be innumerable exhibits and demonstrations of the latest developments of the outdoor advertising art, including the artists and their efforts to better the methods and copy for advertising displays.

Among those who are certain to be here are such men as Briggs, known internationally for his drawings.

Prohibition Is Crowning Issue For 1928, Belief

Republican Leaders Deplore Fact, But Controversy Is Due In Another Year

BUTLER STANDS AS WET EXPONENT

Believe Wet Presidential Candidate Would Spell Doom To Party

By GEORGE R. HOLMES
International News Service Staff Correspondent

WASHINGTON, Feb. 9.—Prohibition is to be a controversial issue in both the Republican and Democratic national conventions next year—perhaps the big issue.

This was universally accepted in the capital today by leaders of both political parties. They deplore it, or most of them do, but say they do not see how it can be kept out.

The Democrats, of course, have been headed for a wet-and-dry fight in 1928 ever since Madison Square Garden, and the Republicans had been congratulating themselves that they would "let the Democrats hang themselves" on the hooks of that controversy.

PROCLAMATION

I, William H. Dunlap, Mayor of the City of New Castle, hereby proclaim that on Saturday, February 12th, 1927, the City of New Castle will have as its guest, His Royal Highness, Prince William of Sweden.

This is the first occasion when any member of any ruling house of Europe has ever been a visitor in the City of New Castle and New Castle is the only municipality outside of the very large cities in the United States where the Prince will visit.

As is traditional in New Castle, the hospitality of this City will be extended to the Prince, as in the past it has been extended to all worthy persons visiting within the City, and as a mark of respect which the City of New Castle has for Prince William and for all of Sweden, whom he particularly represents, and in my capacity as Chief Administrative Officer of the City of New Castle, I do hereby proclaim to his Royal Highness, Prince William of Sweden, a hearty welcome to the City of New Castle, and do call upon all of the citizens of the said City to extend to him the welcome which his high character so worthily merits and which is so properly due to the Representative and Prince of the great Swedish Nation.

Foresee Great Crowd At Cathedral Thursday

Whether or not the Scottish Rite Auditorium will have a capacity audience Thursday night cannot be foretold at the present time.

While there is a greater interest in the concerts tomorrow than any heretofore given in this city, there is a bigger auditorium available than ever before.

With a capacity approximately three times as great as that of the Senior High School auditorium, it is evident that a concert in New Castle now can accommodate an exceedingly large crowd.

Should the weather remain favorable, the out of town patronage will be heavier than ever before. Some idea of the interest that prevails out of the city, can be gathered from the fact that mail orders hove been filled to New Brighton, Beaver Falls, Ambridge, Woodlawn, Sharon, Butler, Mercer, Grove City, Franklin, Oil City, Ellwood City, and other smaller communities.

With good weather a very large attendance is expected from neighboring cities.

Bill Provides Three-Cent Gas Tax For State

Measure Is Presented To State Legislature By Beaver County Member

By ROBERT F. GORMAN.
International News Service Staff Correspondent

HARRISBURG, Pa., Feb. 9.—A bill providing for a three cent tax on a gallon of gasoline was introduced in the house of representatives when that body convened today by Representative Willard S. Reader of Beaver county.

Fifty per cent of the money collected by the tax would be used for state highways in the counties in which the tax originated and the remainder would be appropriated for township reward, under the provisions of the bill.

Arthur Mometer

The longer I live, and the older I get, there are things that I learn as I go, and there's some things I'm learning, that when I was young, I felt were quite easy to know. And there's one thing stands out in the things I don't know, to confess it I am not afraid, its the mental reactions, their reasoning too, of the average American maid. Now when I was quite young, back preceding the war, a girl was no secret to me, I felt that I knew how to handle them, quite, but I had a lot coming to me. And I've got it since then, and I'm free to confess, that these women are by me, a lot, for the things that you think they will like you to do, they'll get peeved if you do like as not. There may come a day, when I'll learn what to do, how to treat them, and just what to say, but I guess I'll be older, say ninety or more, its about 38 today.

Spending Day With Oldest Resident Of County

Mrs. Lucy Morrison Observes 99th Birthday

Mrs. Lucy Morrison of Princeton, oldest resident of Lawrence county, started the celebration of her 99th birthday Tuesday by arising at five o'clock and stirring up pancakes and cooking a breakfast for her family of six.

The breakfast of pancakes, toast and broiled mackerel which she prepared was one of the best ever tasted, said her youngest child of 56 years and the oldest of 79 years.

Her 99th birthday finds Mrs. Morrison still able to read her Bible and newspaper without glasses and still quite active in mind and body. She goes about her daily tasks as sprightly as some do at 40, knitting rugs, quilting quilts and many homey duties.

Blows Out 99 Candles

Twenty-one of her family sat down with her to the birthday dinner yesterday and watched her blow out the light from 99 candles on her birthday cake.

Several of her children were able to be present, her youngest son, J. E. Morrison, and wife, coming all the way from his home in Tulsa, Okla., for the occasion. Next year, if their mother is with them, they are planning a great reunion at which it is hoped that all her children and grandchildren may be with her, and all indications are that she will still be with them to receive them.

Mrs. Morrison's family consists of seven children living, 22 grandchildren, 35 great-grandchildren and five great-great-grandchildren, and she says that if she were granted the wish which she would desire above every wish it would be to see all of these 69 of her children together, well and happy. She said she would rather see that than be presented with a pile of gold coins.

Mother of Eleven

Mrs. Morrison is the mother of 11 children, eight of whom lived to over 50 years of age, and seven of them still living. They are: E. H. Morrison (79) of Princeton, Mrs. J. (Alice) McCutcheon (77) of Oil City; S. M. Morrison (75) of Coffeeville, Kas.; Mrs. W. C. (Josephine) Manning (72) of Syracuse, N. Y.; Mrs. Eugene (Eunice) Freeman (67) of Painesville, O.; W. P. Morrison (59) of Princeton, and J. E. Morrison (56) of Tulsa, Okla.

Mrs. Morrison, whose maiden name was Lucy Zellers, was born near Shippensville, Clarion county, and in giving some of her reminiscences of her early life said that she can remember how one time she and her brother were sent out to chase the deer from the wheat and they found seven deer grazing on their father's wheat field and they were so tame you were able to approach close enough to count their eyebrows before they were frightened away by a stone thrown by her brother.

Six Weeks Schooling

Mrs. Morrison said that at that time their nearest neighbors, with the exception of an older sister who lived three-fourths of a mile away, lived three or four miles away. There were not enough children to form a school and her school life amounted to six weeks, but she was taught to read the three R's by her older brothers and sisters. Every week she walked 5 1-2 miles to Sunday school, she said.

In those days they had no cook stoves, but cooked over an open fireplace and baked the most delicious biscuits in a Dutch oven, which is a large, heavy iron pot with a cover in which the bread was baked by piling red-hot coals around and over it. She said that their regular baking, though, was done in an outside oven made of brick and mortar, in which the large loaves of dough were poured out of a bucket upon a large board and shoved into this large oven. Mrs. Morrison said that she thought

Jail-Breaker Is Recovering From Serious Wounds

(International News Service)

JACKSONVILLE, Fla., Feb. 9.—Ralph Lee, notorious Indiana jail-breaker whose tenth escape recently was climaxed by a gun battle with detectives here in which he was seriously wounded, was reported nearly recovered in a hospital here today and may be removed to the county jail within a few days.

Detective-inspector Hurlbert reiterated today that Lee, when fully recovered, will be returned to Tennessee authorities to finish serving a ten to thirty year term for robbery. Lee escaped from the Tennessee state prison last year.

Richards' Bill Passes House

Would Authorize $5,000,000 In Motor License Fund For Township Award

(International News Service)
HARRISBURG, Pa., Feb. 9.—The house today passed finally the Evans bill authorizing counties of the fourth class to arrange for and pay the premiums on bonds required by county officers, employes and delinquent tax collectors. The measure will be sent to the Senate for concurrence next Monday.

A bill sponsored by Representative Haas, Lehigh, making the office of policeman and constable incompatible was also passed finally today.

Among the bills were:

By Richards, Lawrence, authorizing the use of $5,000,000 in the motor license fund for township award.

By Burke, Philadelphia, extending the provisions of title insurance policies to subsequent owners.

By Guerin, Philadelphia, providing for the erection of a new bridge over the Delaware river at Philadelphia.

By Burke, Philadelphia, providing that the negligence of a municipal employe shall be attributable to the municipality responsible for his compensation.

The car in the rear did not grip the rails properly and bumped the car in the lead, one of the passengers on the first car, J. H. Morrow reporting that his back had been injured.

This morning a city truck parked in the rail track during the fog and a car struck it, without any serious damage.

INTRODUCE BILLS FOR NEW COUNTY ROADS

(Continued From Page One)

Carl E. Marsteller of Mercer county presented a bill calling for the paving of the road between New Bedford and Pulaski, a duplication of the Lawrence county bills, but differing in that his bill would have the road turned at Pulaski and go on up to West Middlesex.

Road bills are being presented at each session and the concensus of opinion seems to be that all of them will be left in committee, as few new roads are expected to be added this session.

Mr. Bickett also has presented three other road bills. The first would provide a road from Derringer's blacksmith shop on Route 265 and from there to the Ohio stateline. The second bill provides for a road from the city line of New Castle at the East Brook road and running by way of East Brook to Volant, the state to build and maintain all of it.

The third bill provides for a road from a point near the P. and L. E. station in West Pittsburg to Route 77 about a mile in all.

that she could still manipulate the operation, even as she did at the age of 13.

Walked to Pittsburgh

Mrs. Morrison related how her father used to walk from Clarion county to Pittsburgh and other points to purchase the year's grocery supply. Often a pound of white sugar and a pound of coffee would have to do them a year. The rest of the time they used maple sugar and wheat coffee made from wheat or rye in their own home.

On being asked what she thought of the ways of the present generation, Mrs. Morrison said that she did not like the short skirts and bobbed hair, nor could she countenance dancing of any kind. She said that she had never danced. She said that short skirts might be better than long, dragging trains, but they wore them too short these days. She thought that the hoop skirts and bustles that they used to wear were more modest, if not more convenient.

Mrs. Morrison was born, raised and married in Clarion county, but she and her husband shortly after their wedding, moved to near North Liberty in Mercer county, in a sled drawn by two teams of horses during the winter season. And then about 60 years ago they moved to the neighborhood of Princeton, where they have resided ever since. Her husband died in 1891 at the age of 65 years.

The school children of Princeton, as well as many friends and neighbors, called on this aged grandmother during the day and wished her happy returns of the day and that she would be granted her greatest wish by seeing her family well and happy on her 100th birthday on February 8, 1928.

Each guest was served with refreshments of ice cream and cake and all went away pleased to have greeted this good grandmother on her 99th birthday.

WOULD REPLACE TROOP "A" UNIT IN NEW CASTLE

(Continued From Page One)

the commanding officer of the unit would have to be an engineer. The unit would not be considered an active combat unit as infantry, cavalry or artillery is.

City Entitled to Unit

"After the display of interest on the part of New Castle citizens, we believe that the city is entitled to a unit of the Guard", said General Beary. "Unfortunately, it was impossible to retain Troop A, as the steps toward transfer had gone too far. But because we believe that New Castle is sincere in its pledges of support, we will place a unit of mounted engineers there if the city so desires. Arrangements can be made in the immediate future, just as soon as the transfer of Troop A is completed".

Immediately upon receipt of the information A. W. Chilton, commissioner of the Chamber of Commerce, was telegraphed, asking that he submit the project to the men interested, and by the end of the present week General Beary hopes to have a reply in the matter.

Insofar as the personnel of the troop is concerned, these men could be taken over by the engineer unit and about the only difference would be the difference in the insignia of the organization.

No Cold In 5 Yrs.

The writer has not had a cold in five years. He catches colds from contacts, just as others do. But at the first sneeze he takes HILL'S. I have proved that colds do not develop when one does that.

But there are other things that millions know. HILL'S checks a cold in 24 hours after it has developed. It ends the fever, opens the bowels, tones the entire system. It leaves one feeling better than when the cold began.

HILL'S combines four of the greatest helps modern science has discovered. It was perfected by one of the world's largest laboratories. It is so efficient, so well-proved that the present owners paid $1,000,000 for it.

Nobody who knows what HILL'S can do will ever use a lesser help. Nor will they delay.

Town Talk

Occupants of an East Side car coming downtown early this morning report an amusing experience. When the car was near the railroad crossing on East Washington street, one of the iron bars outside the window came loose in some manner and dropped down, striking the outside of the car. The noise made sounded very much like the report of a gun. As the noise occurred, a young lady in the car exclaimed, "Oh, Ma! Oh, Ma!" Other passengers were very much excited, fearing that she had been struck by a bullet. Investigation was made however, and it was found that there was no cause for alarm.

Appearance of some of the automobiles coming into New Castle these days would lead one to believe that it was about the last of March—also give evidence that there are still some roads that need improving. Some autos have been noted that were almost coated with yellow mud.

The present spell of weather has the best of the weather prognosticators guessing. For about two weeks there has been about the mildest February weather of many long years, temperature hovering around forty degrees most of the time.

When the Scottish Rite cathedral was in the process of erection it was pointed out that the magnificent building and immense auditorium would be the means of providing many unusual events for New Castle. The presenf week is an example of that prophecy come true. The Minneapolis orchestra is here on Thursday night and on Saturday night the Prine of Sweden appears. Rose Marie is also scheduled for the coming month, along with other features. All of these events are metropolitan attractions. The community must show appreciation of such attractions by unusual patronage, if it is expected that others of like calibre are to follow.

From the crowds that are surrounding the valentine counters in downtown stores, there are thousands of New Castle children to be favored with these little February 14 missives this year. Every day there are large crowds at the valentine counters, and sales are growing in large numbers hourly.

low in the footsteps of her grandfather, her father and her brother. When she enrolled in the University of Arkansas as a freshmen last September, she still cherished the same aspirations. But, believing that she wouldn't have a chance in the college of engineering because she is a woman, she said, she registered in the college of arts and sciences instead.

But she lasted just two weeks as a student of liberal arts. A girl friend of hers induced her to believe that she might enter the engineering college after all. She appealed her case to the dean of the college and permission was granted her to study engineering along with the men students—which included also, of course, the permission for her to get her white hands all dirty, eventually.

Last semester Miss Newsom studied theory work, relative to the engineering course. At the beginning of the present semester, which began in February, she started her practical work and is now wearing overalls six hours a week in the engineering shop. She is also taking ten hours of mathematics each week in addition to other class work. She says she is planning to be an architecutral engineer, following the completion of her four-year course at the University of Arkanas.

Much of the testimony, it is believed, will parallel that at the trial of Pat McDermott, convicted Christmas eve and now serving a life sentence after being convicted as the "trigger man" in the plot. Much of the same information is expected to be used when Louis Mazer, the third man indicted for the crime, is later brought to trial.

against the Volstead law, has changed the party outlook. Republican drys, headed by Senator Borah, Republican, of Idaho, fairly fell over themselves today in their eagerness to accept Dr. Butler's challenge to thresh it out in the Republican convention next year.

"The Republican party, as a party, should unmistakably declare itself on this question", said Borah, "and I shall contribute in every way I can to force the issue to a final conclusion in the next convention".

Die Is Cast

The die thus appears cast in both parties.

Outstanding Republican wets of the type of Senator Wadsworth of New York and Senator Edge of New Jersey, while they endorse Dr. Butler's position, rather deplore injection of the issue into the '28 convention. They think it is too soon. They believe that sentiment against the rigors of prohibition is growing rapidly, as reflected by the referenda in various states last November, and that given another four years perhaps and a wet victory would be easily obtained. Some of the Democratic wets believe, too, that their cause may be hurt by rushing into battle too soon. Nevertheless none of the wets see any way of avoiding a slam-bang fight next year.

Drys Are Eager

The drys, on the other hand, are eager for it, as evidenced by the speed with which Senator Borah leaped into the leadership of the Republican drys. Many imprecations were heaped on Dr. Butler's head today by these drys, although all declared their eagerness to accept "the challenge".

"Dr. Butler's phophecies may be lightly passed over", said Senator Willis, Republican, of Ohio, the Anti-Saloon League's champion in the Senate. "Heretofore his political prognostications have been as faulty as his political leadership has been disastrous.

"His pronouncements on the 18th amendment are eagerly quoted by every lawbreaker who seeks to cover his misdeeds with a cloak of borrowed responsibility.

"If any party should be so foolish as to follow his advice and nominate a wet presidential candidate, the voters will not leave a grease spot of that party, Dr. Butler or Dr. Butler's candidate".

No Written Reply

PEKING, Feb. 9.—No written reply to Secretary of State Kellogg's recent proposal to have Shanghai declared a neutral zone outside of the area of active fighting has been received from either Marshall Chang Tso-Lin or Marshall Chiang Kai-Shek, rival military leaders, John V. A. MacMurray, American minister to Peking, said today.

MacMurray said he doubted if either militarist would make a written reply, as both feared to so commit themselves, although their oral replies had been given.

The Peking government is not collecting the customs surtaxes provided in the Washington agreement of 1921, probably due to the muddle caused by the recent dismissal of Sir Francis Aglen, chief customs collector, MacMurray said.

BIG CONVENTION WILL MEET HERE

(Continued From Page One)

Judge E. Allen Frost, a noted Chicago jurist and counsellor of the Advertising Association and a brilliant lecturer on business and advertising subjects. Miss Buckley the director of the National Poster Art alliance. This alliance directs a great deal of the school poster art work, and encourages the creation and appreciation of posters and poster work. This alliance numbers among its members such noted persons as Septimus Scott and Lorado Taft, and the appearance of Miss Buckley and perhaps the two artists named is of great interest to everyone.

Many other equally prominent men and women will be here and it is conservatively estimated that 500 artists, advertisers, publicity directors and operators will be in the city. The convention should be of practical interest to every one and especially to those who are interested in advertising in its various phases.

While it is not known definitely at this time, as the convention is almost a year in the future, an effort is being made to have K. H. Fulton, head of the General Outdoor Advertising company and recognized as the most influential man in advertising in America, to spend a day at the convention and give an address.

The coming to New Castle is contingent upon the completion of "The Castleton," new hotel, as it is to be the headquarters of the convention. But as the completion of the hotel is contemplated long before January of 1928, the convention seems to be positively assured for New Castle.

New Castle was recognized in its claim to secure the next convention through the efforts of Max Ludwig, of the local outdoor advertising company, who is a director of the State association.

Rockefeller To Build Apartment In New York City

Apartment To House "White-Collared" Class Will Be Erected In Near Future

(International News Service)
NEW YORK, Feb. 9.—The co-operative ownership plan, under which palatial apartments are purchased by the city's wealthy residents, has been applied by John D. Rockefeller, Jr., in the construction of a $1,450,000 apartment designed to give the "white-collar class" with incomes of $2,500 to $5,000 a year the ultimate in comfort and beauty, it was announced today.

The new apartment, known as the Thomas Gardens, is located in the Bronx, overlooking a park and is six stories high. The tenants will acquire stock in the corporation which owns the apartments. Paying may be made in full, in which the equivalent of rent, covering all upkeep and amortization will range from $29 to $46 a month.

The apartment is set off by gardens. Each apartment is open to sunlight and fresh air on at least two sides. The rooms are large and beautiful.

NOTED MAN TO BE CITY'S GUEST

PRINCE WILLIAM OF SWEDEN

PRINCE WILLIAM of Sweden, second son of King Gustaf V, was the direct head of the Swedish Zoological Expedition into the heart of Central Africa in 1923. He endured the hardships of the trail with his party of scientists, hunters and porters and won the esteem of the scientific world for the success of the expedition. He spent a great deal of time in the pygmy country studying the Ba-Twa pygmies in the forests east of Kivu. On the plains of the Ruindi River, he found a veritable big game paradise. He succeeded in bagging gorillas, lions, elephants, and in fact, specimens of practically all the wild animal life of Africa.

His lecture appearance here will mark a red letter event for he is internationally famous, not only as a big game hunter but as a writer of exploration books, novels and plays. He is a poet of distinction and a typical out-of-doors man who loves the thrill and adventure of exploration.

Prince William is a man of brillian education—he speaks the English language fluently. He will show some remarkably fine motion pictures in connection with his lecture appearance here.

Will Appear at The Scottish Rite Cathedral, Saturday, February 12th., 8:15 P. M.

Tickets $1.50, $1.00 and 75c. On sale Davis Shoe Co., Snyder Piano Co., Love and Megown Drug Store.

Andrews Brothers Lease Storerooms To C. B. O'Donnell

Encounter Dense Fog While Driving Here From Erie This Morning

A. W. and O. P. Andrews of Erie, owners of the Andrews block on Neshannock avenue, encountered a dense fog while driving from Erie to New Castle this morning. In the vicinity of Meadville the fog was so thick that they were unable to see more than a few feet ahead of them, and had to drive very slowly. They started in fog and were still in fog when they arrived in New Castle shortly after 10 o'clock.

While here today they sold the restaurant fixtures of what was formerly the Wyrie restaurant located in one of their storerooms and leased two storerooms to C. B. O'Donnell, of West Washington street, the lease being made through T. E. Smith. Mr. O'Donnell will move his furniture store into the rooms at once. The lease was made for five years.

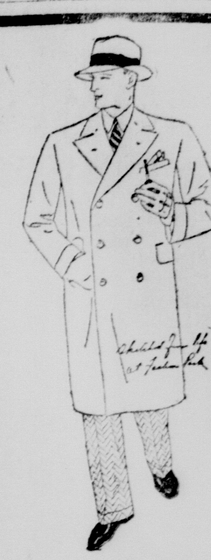

New System For Athletic Council

Reorganization of the business methods of the Athletic Council of the New Castle schools is being carried out under the direction of Marshall Matheny, says Dr. Clyde C. Green, superintendent of the city schools.

Mr. Matheny is preparing a new system of bookkeeping and making out certain forms that will not only facilitate the work of those who have charge of the business of school athletics, but will bring about a more efficient use of the funds and time of all in charge of the work. It is expected that this new policy will be ready for use in the next school year.

BOY ON BICYCLE STRUCK

F. C. Lear of Youngstown, O., reported to the police today that while driving his machine east on Lutton street and about to make a left hand turn into an alley, that his machine struck the bicycle of Ralph DeCaprio, 710 South Mill street, which the latter was riding west on Lutton street, knocking the boy and bicycle to the pavement. The boy escaped injury but the bicycle was damaged. Mr. Lear arranged to have the bicycle repaired.

LADIES!

Don't wave your hair daily—or even every week. Here's a way to keep it wavy for days at a time. BEFORE you use your iron, or curlers, DAMPEN the hair with DANDERINE. Just a few DROPS on comb or towel. Your locks will then behave for a MONTH! Of course, you know what Danderine does to dandruff; dissolves every speck, within five minutes of rubbing into the scalp. But as a wave-preserver on the hair itself, Danderine is a JOY. The best dressing in the world **because it doesn't show.** Any permanent wave or water wave lasts much longer and looks much nicer when Danderine is used instead of water to "set" the wave.

Winter Coats
Radically Reduced

We are continuing the offering of Winter Coats which we have radically reduced. This is your golden opportunity to purchase a coat at a great reduction. There are sizes and styles for the young girls and small women, as well as for the larger woman.

There are sport coats and the more dressy coats of the season's most popular fabrics, and nearly all are attractively fur trimmed. Do not fail to make your selection early.

Every fur coat in the house is reduced as well. These coats have been selected for their fine peltry, are well tailored and beautifully lined. And every coat carries the double guarantee of the manufacturer and ourselves for one year.

We do not tell you that these are wonderful values because they are in our store and we want to sell them, but we are perfectly sincere in our statements. Whether you want a fur coat, a dress coat or a sport coat—a coat of the cheaper kind, or a better one—this is your chance to save those dollars.

Coats for the boys and girls and for the Junior age are also drastically reduced.

Being greatly changed—
New way discards like tissue

By ELLEN J. BUCKLAND
Registered Nurse

OLD-TIME, "sanitary pads" are rapidly disappearing, because of a new way called KOTEX, that 8 in 10 better class women now employ.

Kotex discards as easily as tissue. Thus no laundry, no embarrassment of disposal.

Being 5 times as absorbent as ordinary cotton "pads," it permits lightest gowns and frocks without slightest fear. Dance, motor, go about for hours without a moment's doubt. And it deodorizes; thus ending all fear of offense.

Obtain at any store without embarrassment simply by saying "KOTEX." Try today and you'll never again risk the uncertainty of old ways.

Box of 12 costs only a few cents. Be sure you get the genuine. Only Kotex itself is "like" Kotex.

SECOND JUDGE BELIEVED CERTAIN

UNANIMOUS action taken in the state senate yesterday on the bill introduced by State Senator George T. Weingartner, of this city, providing for the appointment of an additional judge for Lawrence county, seems to indicate that the measure will be enacted by the state legislature. It will most likely be approved by the governor.

Lawrence County Bar Association, the men most familiar with the need for a second judge, overwhelmingly approved the move that has been started to secure the appointment of this second judge for the county, and there seems to be unusual accord on the project.

The indicated speed with which the measure is being given attention in the state legislature would provide for the appointment being made sometime during the coming spring.

There are many members of the Lawrence County Bar Association eligible for appointment to this office, so that the matter of securing a capable judge, once the measure becomes a law, is not a perplexing one in this county.

SUPPORT THAT MEANS SOMETHING

REPORT made by the New Wilmington Rotarians and those associated with them that they had succeeded with a week's time in raising the sum designated for immediate restoration of reference books in the Westminster College library, and the foundation of a greater library than that destroyed by the fire that ruined "Old Main" is gratifying. It not only shows the service of the organization, but is a slight indication of support of the school which guarantees that a greater Westminster will rise from the disaster that occurred recently.

New Wilmington, Lawrence county and the entire Westminster world are solidly supporting the school in this hour of its greatest need.

Plans being rushed to provide for the immediate erection of a new building to replace the structure burned, will be given every encouragement and support.

THE FAMOUS COW THAT MADE CHICAGO

QUITE characteristic of Chicago is the movement to preserve for posterity the site where Mrs. O'Leary's cow kicked over the lantern that started the great fire in that Midwest city.

The alderman who introduced the ordinance for the purchase of the small plot of ground says that it marks the beginning of the enterprise which has made Chicago famous.

This is only another way of saying that adversity has a way of bringing out the real American spirit. This is true, but the trait is not confined to Chicago. It has been exhibited in San Francisco, Galveston, Johnstown and many other communities.

Calamities and misfortunes are sometimes virtues in disguise when they have the effect of bringing courage to the surface.

In that belief most of us will join the Western city in celebrating the memory of what was originally regarded as a great catastrophe.

REMEMBRANCE

And if I played the coward now
And flung my faith away;
If unto this I would not bow,
What would she think or say?

If her brave spirit still can hear
And if her eyes can see
If now and then she watches near,
I'd have her proud of me.

For it would hurt her could she know
I doubted God today
And stunned by such a cruel blow
Had flung my faith away.

For her sake, though the pain is deep
And though the days are long,
The little home she loved I'll keep
And struggle to be strong.

I'll live as once she taught me how,
Though she is far away,
For if I played the coward now
What would she think or say?

Only a short time ago buzz wagon drivers were complaining about breaking so many cross chains, then they kicked about getting stuck on unpaved sereets. No use for the weather man to try to please.

Rumblings of a coal strike are heard in the land, and big corporations are laying in a supply of coal. Nobody ever seems to be satisfied in the coal business.

There are a lot of reformers roaming about the country, trying to make everybody as good as they are; or at least as good as they would have the public think they are. Some of them have had infamous criminal careers, which gives them plenty to talk about.

Down in West Virginia the Prohibition laws are not the only worry. If a man wants to carry a gun, he has to make application to court and publish his intention. It's different here. When a man wants to carry a gun he just carries it.

The snow brakes which have been placed along the country roads haven't had much exercise this winter, but then the fellow who built them had exercise, the fellows who put them up, ditto, and the fellows who take them down, and the fellows who store them away, will all get their exercise, and what is best of all, will be paid by the state.

In a recent address a local attorney stated that there are too many laws and that a lot of them should be repealed. We agree with the proposition heartily, but what we would like to know is how we are going to get them repealed when every legislator who goes to Harrisburg has inside pockets full of new bills and nothing in his repeal pocket.

WHAT HE NEEDED

A local colored man agreed to maintain a savings account made one deposit, and there the matter rested. The head of the bank met him one day and proceeded to take him to task.

"Now look here, you promised to put $5 in our bank every month. You haven't done so. You could easily do it."

"I s'pose I could, boss," replied the culprit easily. "Trouble with yo' bankin' gentlemen is you don't send around a man to threaten me."

A MAN'S JOB

They sat silently for a long time; then he spoke a little nervously.

"What are you thinking about?" he asked. He knew he had to say something.

She blushed and moved uneasily in her chair.

"Never mind," she answered sharply. It's your business to propose, not mine."

THE FORD

The Ford is my motor;
I shall not want (another)
It maketh me lie in muddy roads.
It leadeth me into much trouble.
It draweth on my purse.
I go into paths of debt for its sake.
Yea, though I understand my Ford perfectly,
I fear much evil.
For the steering wheel or axle might break.
It hath a blow-out in the presence of mine enemies.
I annointeth the tire with a patch,
The radiator boileth over;
Surely this thing shall not follow all the days of my life, as I shall dwell in
The house of poverty forever.

Wall Street was gay yesterday, all except bears. They had a tear in each eye. Those that sold Wheeling & Lake Erie short saw the stock go up 11 points more and had to pay $6 premium to carry along their shortness. Better to buy than sell in this country.

Such is part of the news on which you will muse today. The newspaper is the second hand on history's clock.

"The blood is the life." Wise Moses knew it. Every man's history proves it. Our eating, breathing and exercising make the blood, and it makes us. A Dutch proverb says: "Good wine makes good blood; good blood makes good thoughts; good thoughts make good deeds."

Young gentlemen concentrated on the prize ring wondered when Dempsey seemed unable to fight Tunney. There was no "punch" coming from the brain to the fist. Now you read that Dempsey, suffering from blood poisoning, has undergone six operations in eighteen hours. A reflection, doubtless, of the condition that made Dempsey useless in the prize ring last time.

Endless millions of red and white corpuscles flow through veins and arteries, the red feeding your body, the white fighting disease, as workers supply a nation with food and soldiers protect it.

Take care of those red and white corpuscles. Give them good food, plenty of sleep and plenty of oxygen above all. For if the blood is the life of man, oxygen is the life of the blood.

Four black and white oxen, yoked to a cart so built that the wheels creak in different tones, dragged the corpse of Japan's mikado slowly to his grave. Streets were lighted with torches, thousands were waiting through the night, in reverence, for the dead body to pass.

In old days, when wholesale murder was a permanently established institution, the survival of the tribe depended on the leader selected to think for all.

And devotion to the leader in millions of human beings is stronger than love of life itself.

Wasilewski in his life of "Ivan the Terrible" describes a rebellious boyar, impaled by the czar, suffering for twenty-four hours, hung on a spit stuck lengthwise through his body, constantly calling upon his wife and children nearby to "pray the great God to protect the life of the czar."

There are fine women in America. A year ago Mrs. Myrtle Huddleston of California took up swimming "to reduce." On Saturday she swam the Catalina channel, her eleven-year-old boy crying out to her, "come on, mamma, don't give up." When she finished the swim, the thirty-year-old mother was delirious, partly paralyzed and had been bitten four times by savage barracuda.

Too bad that such a woman should waste her marvelous vitality on a battle that pleases the morbid but does no good. The nation could afford to pay her to have twenty-one children instead of swimming twenty-one miles in icy water.

Bernard Shaw says mothers should be paid for having children and adds, "I would not have a baby for less than $10,000." He underestimates it.

If he were a woman, with only a man's courage, and had one baby, he wouldn't have another for a million dollars.

Dr. Crane's Editorial

SEVEN SPARKS

Some moments in the history of mankind have been more important in their far-reaching effects than any of "The Fifteen Decisive Battles of the World."

Such moments have been like tiny sparks setting fires which have spread and grown and carried their influence down to the present.

Seven of these sparks are:

1. The moment when the first word was spoken. The transition from a grunt to a word opened up endless possibilities. Without words, ideas are impossible. Thinking would concern merely personal experiences. Words brought an opening that led to advancement in a thousand ways.

2. The first man-made fire. The instant when man held within his power the ability to control fire he had mastered the twin fears of darkness and the wild beasts that prowled in it. He had freed his fear-haunted brain to more constructive thinking and could come out of the trees and the caves into the open where his advancement was more rapid.

3. The moment when writing began. From it spread the passing on of knowledge from generation to generation by accurate means. Folklore and word-of-mouth preservation of the learning of the fathers was superseded by a more watertight conveyance. It made possible papers, books, and the quick dissemination of information.

4. The moment man first felt love. When love in the true sense first budded in the soil of appetite, primitive man raised himself from all fours and stood erect. A door had opened leading to infinite possibilities.

5. Money. When man first conceived the idea of money, of an easily handled medium of exchange (instead of bringing the cow to exchange for the wagon), he made possible trade, industry, civilization as we know it.

6. The moment when man first appreciated beauty. Up to that time he had been concerned only with bodily comfort. Then some moment when his hunger was satisfied, IT happened. He felt a strange delight in the sight of a flower or a cloud or a sunset. An appreciation for the beautiful awoke and opened new avenues of growth.

7. When the idea of a soul began. Some cave-man may have sat up in his cave and looked around some morning after dreaming of escaping a dinosaur or capturing an enemy's wife. He remembered all this distinctly, yet he saw he had not left the place where he lay down the night before. The idea that he was two popped into his head. And from this idea grew the all-influencing idea of mankind—the belief in a soul.

Such spark-moments record the history of humanity more truly than do the dates of conquests, the names of incidental leaders or the migration of peoples.

For they record the inception of ideas which have had an influence world-wide and lasting.

The World AND THE Mud Puddles

THE "APPROVAL" PEST.

The great department stores of the country have for many years been accustomed to send gowns, furs, shoes and other articles of women's apparel to their customers on approval. Sometimes the customer has returned all of the goods she recived, the next day, and sometimes she will keep some of them, and pay for them. This act of mercantile courtesy has been much abused, for frequently ladies desiring a new party gown with which to astound their friends, and cause envy among their enemies, have availed themselves of this condition, and after receiving the gowns on approval, have worn them, and returned them the next day, none the worse for the wear. The merchants know this, but seldom are able to actually tax a customer with the act.

There is a shoe merchant in Pittsburgh who boasted that no woman could put anything of this sort over him, and never can any ambitious lady have silver or diamond buckled slippers sent out from his establishment on approval, wear them, and return them, and get away with any such rough stuff. He has a wife, however, who is not immune to temptation. The natural result of the shoe merchant's state of mind is that he does not buy for his wife all the beautiful things which women love. It was therefore natural that upon the occasion of a great party in Pittsburgh, to which the merchant and his wife were invited, that the lady in question should desire some new clothes. She especially wished a coat. She visited Joseph Horne's and picked out two beautiful coats, and had them sent to her on approval. She wore one of them to the party, and returned them both the next day. After the package had left, she was paralyzed by remembering that she had left her gloves in the pocket of the coat she had worn. Distractedly the next mornig she went to the Horne store,—she avoided the clerk who had waited upon her in the cloak department, and told other clerks that she was not particularly interested, she was just looking around. By careful scrutiny, she discovered the coat rehung upon the rack, and much to her joy recovered the gloves from the pocket. How the employees receiving the coat back had failed to observe the gloves, nobody knows. She was lucky, that's all, and the husband whispers the story about!

However, so great had become this abuse of courtesy in Pittsburgh that the merchants of Pittsburgh did band together and employed a detective force to run down all such abuses. It was not long after when there was a great reception given in Pittsburgh. It was in the winter time, and many guests desired to appear at this reception, clothed in gorgeous furs. Naturally, there were a great many furs sent out by the different stores on approval, a few days before the reception. The merchants sensed that this was a great opportunity to teach the Pittsburgh ladies a lesson. The detectives were very busy at the reception, and spotted a great many furs being worn, which were returned the next day. The ladies in question received bills for the furs, accompanied by the return of the furs. There was much weeping and wailing, not only among the ladies but among their husbands. One in particular besought on her knees that the fur be accepted and a small sum paid as damages. The particular fur cost thirty-five hundred dollars. She told the department manager that if she had to take that fur it would cause a divorce in the family. Another matron insisted that they would have to mortgage their house. And so on. But the store managements were hard boiled. They had set out to teach the Pittsburgh ladies a lesson, and there were divorces, and there were mortgages. But there is not so much abuse of the privilege in Pittsburgh today.

POEMS-HOVE
By CHARLES HANSON TOWNE

"He Whom a Dream Hath Possessed" by Shaemus O. Sheel.

I do not know why it is that Mr. O. Sheel has ceased to write his beatiful poetry. He is still a young man yet it is several years since I have seen his name. There are several of his shorter poems—among them this—which deserve immortality. He is richly endowed as a singer and in his greatest moments of inspiration he stands head and shoulders above many of his contemporaries. I never read these lines without a sense of their aching beauty, their incontrovertible truth.

He whom a dream hath possessed
knoweth no more of doubting,
For mist and the blowing of winds
and the mouthing of words
he scorns;
Not the sinuous speech of schools
he hears, but a knightly
shouting,
And never comes darkness, down,
yet he greeteth a million
morns.

He whom a dream hath possessed,
knoweth no more of roaming
All roads and the flowing of waves
and the speediest flight he
knows,
But wherever his feet are set, his
soul is forever homing,
And going, he comes, and coming
he heareth a call and goes.

He whom a dream hath possessed
knoweth no more of sorrow,
At death and the dropping of
leaves and the fading of
suns he smiles,
For a dreamer remembers no past
and scorns the desire of tomorrow,
And a dream in a sea of doom, sets
surely the ultimate isles.

He whom a dream hath possessed
treads the impalpable
marches,
From the dust of a day's long road
he leaps to a laughing star,
And the ruins of world's that fall he
views from eternal arches,
And rides God's battle field in a
flashing and golden car.

Blame "Firebug" For Farm Blaze, Loss Is $65,000

(International News Service)

PHILADELPHIA Feb. 9.—A "firebug" was blamed today for the blaze which destroyed the barn of Milton K. Haar, two miles east of Ambler last night, resulting in the injury of three persons. The loss was estimated at $65,000.

Theodore Serrell, superintendent of the farm, was painfully burned while rescuing 20 head of cattle. Nelson Keeble and George Kotz of Hatboro, were injured, Keeble possibly fatally, when their automobile was sideswiped by a Willow Grove fire truck enroute to the fire.

Tons of grain and farm machinery stored in the barn were destroyed.

Island Leader Has Surrendered To Constabulary

(International News Service)

MANILA, P. I., Feb. 9.—Deserted by his followers and denounced by his wife, Datu Tahil, leader of the short-lived uprising in Sulu province against the government, has surrendered to the constabulary, it was reported here today.

Tahil's surrender followed closely capture of Princess Tarhata, his wife, who is a graduate of the University of Illinois.

Although the Princess since her capture, has taken full responsibility for the ill-fated rebellion, Datu it was believed, will be sent to San Ramon prison under a long term sentence. Princess Tarhata said she inspired the revolt because Datu was expelled from the provincial council.

Senate Sessions Have Been Mild

Little Develops In Way Of Sensations As Had Been Forecasted

ELECTION REFORM PROGRAM IS UP

By WILLIAM B. BROWN,
International News Service Staff Correspondent

HARRISBURG, Feb. 9.—Regardless of what Gov. John S. Fisher may recommend, members of the state senate, scattering to their homes today realize they must be prepared to face a definite election reform program. Beyond that the situation is described as "quiet."

The eight bills introduced yesterday by Senator Frank J. Harris, Allegheny, added to the seven he already had before the election committee are said to be a comprehensive program for rendering the stealing of buying of elections more difficult than it has been. They also will make it more unpleasant for the perpetrators who are convicted.

Session Disappoints

Observers who crowd the senate chambers during its brief sessions apparently are more interested in something that will break the "even tenor" of the present featureless functioning that they are in the big things which are scheduled for the future.

So far the session has proved disappointing for those who watch and wait through the weary droning of calendars and journals. During the last regular session and the special one early this year, verbal fireworks were so good that the attendance record is maintained, apparently on the "hope that springs eternal." It has been merely a succession of disappointments.

The first blood was looked for when William P. Gallagher was slated to step down from the chief clerkship. There were all sorts of rumors. Gallagher's friends were going to rip the lineup to pieces. But nothing happened except John McKirdy quietly taking the job.

The next big promised attraction was the inauguration speech of Lieut. Gov. James. Every one about the capitol had verbatim advance copies of his speech in which he was going to outline his position in no uncertain terms. But the new lieutenant governor made the usual speech in the usual way.

About each important set of confirmations the same advance ballyhoo was sprung. But nothing much happened except unanimous- or almost, votes for each of the names submitted.

Disappointment Again

When something unexpected really did happen, everybody was disappointed again. This time it was only because the two gladiators talked so low that even the official reporters had to strain their ears to catch the words.

The only shadow of a flareup that has developed came between Senator Max Leslie, Allegheny, and Senator Augustus Daix, Philadelphia. Usually the vote of the one echoes that of the other. So when the latter accused Leslie of reporting out three banking bills without even having informed him of a committee meeting the crowd surged closer to the brass rail about the seats in the chamber.

There was a low, tense voiced exchange of compliments for a couple of minutes. As the notes are not yet transcribed by the senate clerks no one knows exactly what was said.

Although Dauphin county and a lot of capitol jobholders were anti-Fisher in the campaign those who hope for some real action in the legislature were not confined to that wing. All except those who draw the lines would like a bit of debate now and then to talk about.

So hope has scheduled a lot of fireworks for next Monday evening.

Rev. J. B. Porter At City Mission

Will Preach Friday Evening — Church Choir To Sing During Services

REV. J. B. PORTER

Another fine audience was present last night that completely packed the auditorium of the City Mission and who greatly enjoyed the wonderful gospel message delivered by Rev. G. A. Leichliter.

Tonight Rev. Leichliter will sing and preach, using for his subject, "Judas Up-to-Date", and tomorrow evening, Thursday, Rev. Leichliter will speak from the subject, 'Lucifer Sings in Secret". There perhaps is no out-of-town speaker that comes to the City Mission who the people of the city enjoy hearing any more than Mr. Leichliter, who from the first time he was here several years ago has won his way to the hearts of his hearers.'

Friday evening the Rev. Jesse B. Porter, pastor of the Central Christian church, with his large choir and many of his congregation, will conduct the service at the City Mission. Several musical selections will be rendered and Rev. Porter will preach. The public is invited to attend these services of worship.

Fairview Grange To Present Plays

Opening Play Will Be Presented Friday Night At Princeton I. O. O. F. Hall

A series of plays will be presented by Fairview Grange in the next few months and it is expected that the residents of the districts in which it is located will make the most of this opportunity of seeing some excellent home talent productions, put on by various granges of the county.

The first of the series will be presented Friday evening of this week in the I. O. O. F. Hall at Princeton. The play to be presented on this occasion will be "The Heiress Hunters" and it will be given by Westfield Grange.

On the following Friday evening, February 18, Liberty Grange will present the second of the series at the same place. The play to be presented on that evening is entitled "His Uncle's Niece".

Fairview Grange will present its own play some time in March. This play entitled "Two Days To Marry". The other plays to be presented will be announced later.

Grid Star To Enter Movies

(International News Service)

EVANSTON, Ill., Feb. 9.—Ralph "Moon" Baker, all-American halfback on last season's Northwestern University football team has turned his back on education to capitalize his fame.

Reports that Baker, like Red Grange had forsaken his studies to gather in the golden harvest, were confirmed today when it was learned the famous Purple star had failed to register for the new semester which began yesterday.

It is understood Baker will follow the former Wheaton ice man into the movies. He will make 12 two reel picture comedies for Warner Brothers, it was said and then engage in other enterprises to exploit his name.

In Day's News

Judge Stephen B. Davis, jr., who may become the first radio commissioner of the United States under the law recently enacted by Congress, is at present Solicitor of the Department of Commerce. He is known as Secretary Hoover's right hand man and is unquestionably one of the foremost legal authorities on radio. Judge Davis is a native of Connecticut, but the greater part of his career before going to Washington was identified with the Territory and State of New Mexico. After receiving his L. L. B. from Yale in 1897 he went to the Southwest and began the practice of law in New Mexico. For five years he served as a district attorney and in course of time became an associate justice of the supreme court of New Mexico, retiring from the bench in 1923 to accept his present position in Washington.

Measles Epidemic Is Not Abating

MERCER, Pa., Feb. 9.—There were 153 new cases of communicable diseases reported in Mercer county as against 125 releases from quarantine last week. Measles still has the lead, with an increase over the report of last week. Scarlet fever dropped back to four after jumping to 15 the preceding week. Diphtheria, against which a warfare is being waged by the county health office, remains at the minimum. The report is as follows: measles, 124; whooping cough, 15; scarlet fever, 4; chickenpox, 3; pneumonia, 3; tuberculosis, 2; diphtheria, 1; typhoid fever, 1.

Another Evidence of Spring

Wampum, Pa., Feb. 9. '27.

Dear Editor:

This morning I walked down into my yard after the sun began to shine and noticed that in my pansy bed I had two pansies in full bloom, and several buds were beginning to open. Up above the pansy bed sat two robins chirping away. That surely must mean that spring will be here shortly.

Yours Truly,
Helen M. Powell,

Mrs. Humphreys Relates Activities In South Of New Castle Folks

The News:
New Castle, Pa.

It is too warm to sit in the house tonight to write, as I have tomorrow's wash scalding out on the kitchen stove, and you know our houses are so small here that a candle lighted in one room will overheat the next. I am not sure I can follow any connected train of thought, for the colored brethren of the Baptist church east of town are having song service this evening and Kissimmee is coming home from a visit to the Griffin Company's sawmill at Holopaw and there is a steady stream of autos past the porch.

The weather has warmed up after a couple of cold snaps which made us think we were having real winter. As to the damage done, opinions differ. Fruit in this locality suffered but little, and I think no hurt has been done even to the young trees. Further north there would, of course, be greater harm. Tender vegetables were killed in places, but strawberries seem to have escaped. They are plentiful and fine, ranging from 39 cents a basket to 50 cents for extra fine berries. And that means a full basket, solid packed, ripe and uniform to the bottom.

Growth has not started generally on the trees, although there are indications of spring. Maples, mulberries and other deciduous trees are budding, while a few citrus trees are coming in bloom. The weather is and has been very dry all winter. Lakes and canals which were very high in the fall are low. Paving and sewering which were interrupted by the excessive rain of the late summer are going forward now at a satisfactory rate. Some building is still being carried on, but there is not much movement in real estate. The general trend of opinion seems to be optimistic for a revival of the legitimate business after we have sobered up from our hysterical condition of the past two years.

We have made another trip to Sebastian Inlet, this time having a regular Lawrence county motorcade. The party included Mr. and Mrs. McKay, the Huston family, Mr. and Mrs. Joe Wimer, Mr. and Mrs. Smith, Mr. and Mrs. Pascoe, Mr. and Mrs. Penn, Mr. and Mrs. Yoho, Mr. and Mrs. Ray Newton and children of Ellwood, Mrs. Hewett, Mrs. Round and the writer, while Harry McKay and Frank McConnell preceded us a couple of days, camping and fishing until the rest of us got there. No fish were to be caught and all came home empty-handed. Some professional fishermen who were out in boats were getting some fish, but it is scarcely a place a novice would venture out for sport. We spent a most enjoyable day on the beach, our principal amusement being catching coquinas. These are tiny shell fishes which may be picked out of the sand if one is swift enough to catch the little fellows before they dig themselves into the sand after being washed up by the waves. Scientific equipment for their capture consists of a screen of rather coarse wire netting and a shovel. I guess a bathing suit would be a desirable costume for this sport, but we did not let the fact that we had not provided ourselves with the proper paraphernalia interfere with our enjoyment. Mrs. Round and I had about a quart of the small bivalves, Mrs. Hewett absolutely declining to partake of our feast at supper. The broth is very fine and the next time we expect to also try our hand at making chowder.

Starting at five a. m. we were almost to Deer Park before daylight and on the way I had my first motor mishap. I was unfortunate enough to meet a real road hog who insisted on taking my side of the road in such a way as to leave me no choice but to hit him. No damage was done the car and not much apparently to the hog, who wriggled out from under and went off into the palmetto with only a limp. I suppose if I had been in Pennsylvania I would have been expected to stop and render aid to his swineship, but Florida laws are more lenient.

Busy people up North ask me how we put in our time down here. Well, we have to get an extension put to our days if we are to get in all the things we would like to do. The foregoing three pages were written 10 days ago and now at 10:40 p. m. I am sitting down to finish up my letter and get it to New Castle before the subscription man gives me up for lost and marks me off his list. Several days have been spent superintending an ebony hued individual as he cleaned up my lots and pruned my trees. Superintending does not seem quite the right word, as mine was rather a consulting positon, he knowing much more about the work than I did. In addition to actual work done, I think I really got my moneys' worth in citrus fruit growing lore.

This week, and continuing all of next week, we are having a Bible conference under the auspices of the Moody Bible school, with Rev. Charles Edward Le Rean of Detroit and Dr. Ostrom as the teachers. This is held in the Baptist church and is a great treat, Rev. Le Rean being a very forceful teacher and Dr. Ostrom driving his points home with kindly humor which robs his most pointed thrust of any sting. We have recently had Mrs. Shepard here with her address on the Mormon question and later are to have Captain Hobson working with the Anti-Saloon League.

Several of our New Castle people are out of town seeing what the rest of the state is doing. Dr. Winter was a business visitor to St. Cloud recently, having come over from the coast. Mr. Yoho has his new house started. Mr. Pascoe has been quite sick, but is better. Mrs. Round is preparing for her northern migration and will leave for New Castle next Wednesday. I have received word that Mr. and Mrs. Cooper of Slippery Rock are en route with the intention of camping here for a few days. I have left word with my neighbor across the avenue to extend to them the freedom of the place should they arrive when I am away from the house.

Weather is warm and still dry. We have had a light shower and have heavy dews almost every night. Vegetables are beginning to recover from the cold weather, although the loss to truck growers was heavy on beans, egg plant, tomatoes and other tender things. We are having new peas and carrots now and will shortly have my own potatoes. I planted Red Bliss in November and twice during the cold spell hoed the sand up over the tender tops. Very few were hurt with the cold. In January I planted the seed potatoes given me by my nephew, W. J. McDoud when I left Butler county. They are coming up finely and I am interested in experimenting to see what they will do in our soil. I have a gray sand with lots of humous and use nitrate of soda for fertilizer, using it in solution. I have not used anything else in growing my garden the past two years. Eleven twenty and the electric lights have gone off, so I will sign this by the light of a candle and say "goodnight".

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches rub on good old Musterole.

Musterole relieves the congestion and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister.

First you feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief. Have Musterole handy for emergency use. It may prevent serious illness.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

GETTYSBURG, Pa., Feb. 9. — The Gettysburg Fire Company believes that only two fires during the past forty years which required the use of a hook and ladder truck does not justify the expenditure of $1,000 to have their truck motorized and have therefore given up their intention of making this improvement.

New Penitentiary Site Deals Are Underway

Many Owners Agree To State Price And Other Land Will Be Condemned

COLLEGEVILLE Feb. 9.—The work of obtaining 1500 acres of land in Skippack township as a site for a new Eastern Penitentiary is well under way by the special commission headed by State Senator Samuel Salus of Philadelphia. It already has taken over titles to several tracts of land. Negotiations are under way to obtain title insurance for the State on the new holdings, and deeds of the property are being looked into by research agents for the State.

These preliminary steps are expected to be completed in time to permit sales of the property this week. The prices paid for the land have not been made public, but it is understood to be the plan of the commission to close as many deals as possible on agreeable terms with the property owners so condemnation proceedings may be averted as far as possible.

After all property owners have been given an opportunity to sell their land on terms offered by the State, others will figure in condemnation proceedings, whereby the land desired will be seized by the State and a fair price determined by a jury of view appointed by the court.

MAUCH CHUNK— An epidemic which has struck hard in this city during the past month, first thought to have been la grippe, has developed into what is believed to be intestinal infection from bad drinking water. After 250 persons had been affected by the epidemic, doctors advised boiling of drinking water. The boiling of the water halted the increase of new cases.

GETTYSBURG—Harry Butler of Pittsburgh, a student at Mt. St. Mary's College at Emmitsburg, Md., who had his neck broken while playing football with his college team here last November, has been discharged from the local hospital, where he received treatment. Butler was in the hospital 10 weeks. Although not yet entirely cured, Butler was taken to his home with chances for his complete recovery.

LEBANON—Because John Ketter, applicant for citizenship in the local courts, was accused of beating his wife, he was denied naturalization papers by Judge C. V. Henry and United States Examiner A. F. Stevens of the Philadelphia office. The alleged wife beatings were said to have been administered within the past year, according to testimony given by neighbors of the family. Consequently Ketter must wait some time before he can renew his petition for naturalization.

HAZLETON—Mayor James G. Harvey does not believe in compelling the parents of delinquent boys brought before him on petty charges to pay the fines. The mayor has adopted a rule whereby boys found guilty of such charges as playing dice and petty thievery are required to earn their own money to pay fines. The boys are allowed from 30 to 60 days to earn the money and the parents are forbidden from helping the lads raise the cash.

GETTYSBURG—The old chemical laboratory at Gettysburg College, erected in 1872, will be torn down next summer to make way for an ornamental gateway into the college grounds at that point. The new science hall will be completed before the opening of school next fall and the old laboratory no longer will be in need.

FOURSCORE and seven years ago, our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field as a final resting-place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note, nor long remember, what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us,—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion,—that we here highly resolve that these dead shall not have died in vain,—that this nation, under God, shall have a new birth of freedom,—and that government of the people, by the people, for the people, shall not perish from the earth.

Make Plans For Prince's Visit

Committee Meets On Tuesday Evening And Makes Arrangements

GUARD OF HONOR BEING PLANNED

Plans for the welcome to be extended to Prince William of Sweden when he arrives here Saturday afternoon for his appearance here that evening at the Scottish Rite Cathedral under the auspices of the Quota club are meeting with a general enthusiastic reception. There is every indication that New Castle and Lawrence county will arise to the occasion and extend a resounding welcome to this distinguished member of the royal family of Sweden.

An exceptionally enthusiastic meeting of the reception committee was held last evening at the office of the White Undertaking company and plans formulated for the coming visit of Prince William.

Original plans were considerably enlarged and now contemplate the taking of the city's guest about the principal streets of the city under special escort and accompanied by groups of Swedish-Americans and others, so that the entire population of the city may have the opportunity of getting a first hand view of the prince, who is attracting so much attention during his visit in this country.

Present indications are that several bands will be secured for the trip through the downtown streets of the city and that the parade formation accompanying the prince will be of considerable magnitude. A special guard of honor will be provided for the royal visitor.

Invitations have been extended to the Swedish-American club of Youngstown, as well as of this city and Bessemer and indications are that these organizations, as well as others, will have considerable groups in the parade.

There is every indication that when Prince William appears on the stage of the Scottish Rite Cathedral to tell of his experiences as a big game hunter and leader of a scientific expedition into the wilds of Africa, that there will be many hundreds of people present to greet him and listen to his remarks with interest.

Tanlac Saves Mrs. Tucker From Years of Suffering

Threatened With Complete Loss of Health Due to Severe Headaches, Stomach Trouble, Nervousness, Is Restored to Good Health.

"For six long, terrible years I suffered from severe headaches, that often made it impossible for me to ride on a train or trolley," says Mrs. A. J. Tucker, 120 Orchard Street, Nanticoke, Pa. "I would often be so sick I could not do my housework.

"Food that I ate caused many agonizing hours. If I ate certain foods gas would form in my stomach. I never knew the pleasures of a good night's rest as my nerves were in such terrible shape. I tried several treatments in the search for relief. But without result.

"It remained for Tanlac to come to my aid. This tonic put me back on my feet and at the present time I am enjoying the best of health. I can eat everything without suffering. I do not have those terrible headaches any more. I sleep soundly and get up in the morning feeling refreshed and ready for the day."

Mrs. Tucker is only one of thousands of men and women who have found the way to good health by taking Tanlac. This tonic, made from roots, barks and herbs according to the famous Tanlac formula helps banish pain, put flesh on thin bodies, build strength and health.

Try Tanlac for better health. The first bottle gives results. At all druggists. Over 52 million bottles sold.

Opportunity Circle Guests At Meeting

M. E. G. Auxiliary Hostesses To Opportunity Circle—Other News Of Seventh Ward

Tuesday evening the members of the M. E. G. Auxiliary of the Mahoning Presbyterian church had at their monthly meeting in the church as their guests, the members of the Opportunity Circle of the church. In all forty-six were present, including twenty-six members of the Opportunity Circle, twelve members of the M. E. G. Auxiliary and eight special guests.

During the evening a program was carried out. Mrs. E. W. Guy, president of the M. E. G., presided. Devotionals were in charge of Miss Mae Park. The secretary's report read by Miss Ethel Scheidemantle. The treasurer's report was read, all bills and apportionment for the year have been paid. The home mission topic, "The American Indian", was discussed by Mrs. Walter Hayes and the foreign mission topic, "Chosen", was discussed by Miss Mae Park. The answer of roll call was the name of an American Indian tribe.

Special features of the evening's entertainment were, two vocal solos by Miss Lila Henshaw, "From the Land of Sky Blue Waters," by Charles Wakefield Cadman, "The False Prophet", by John Prindle Scott, accompanied by Miss Virginia Howard on the piano. Doubles the Beauty of Your Hair

The simple hair styles of to-day make beautiful hair a necessity.

Luckily, beautiful hair is now easily obtained. It is simple a matter of shampooing.

Proper shampooing makes the hair soft and silky. It brings out all the real life and lustre, all the natural wave and color,and leaves it fresh looking, glossy and bright.

While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why discriminating women, everywhere, now use Mulsified Cocoanut Oil Shampoo. This clear, pure and entirely greaseless product brings out all the real beauty of the hair and cannot possibly injure.

Two or three teaspoonfuls is all that is required. It makes an abundance of rich, creamy lather which cleanses thoroughly and rinses out easily, removing every particle of dust, dirt and dandruff.

It leaves the hair soft and easy to manage and makes it fairly sparkle with new life, gloss and lustre.

You can get Mulsified Cocoanut Oil Shampoo at any drug store.

A four-ounce bottle lasts for months.

700 Gallons Liquor Destroyed In Mercer

MERCER, Pa., Feb. 9.—Following an order issued by Judge James A. McLaughry, all the confiscated liquid evidence which has accumulated in the "booze room" in the basement during the past several months in cases which have been disposed of, was dumped into the sewer Monday under the supervision of Parole Officer W. T. Thompson, Sheriff W. A. Bone and County Detective Sam Leyshock. The consignment consisted of nine barrels of wine and a large amount of bottled wine, amounting to approximately 500 gallons, between 150 and 200 gallons of hard liquor, including "white mule", corn whisky, prune whisky and several other varieties. There is still a large amount of liquor in storage which cannot be emptied until the cases in which they are evidence have been heard.

"Champion Air Fisher" Claims Title Through Logging 310 Stations

Photo shows G. E. Gillette at his seven-tube radio set. The wave trap shown above the receiver has aided him in logging 310 stations.

In the radio story below G. E. Gillette of Kansas City lays claim to the title of "champion air fisher" because he has logged 310 stations. Harold Gallagher, radio announcer at Station WTAM at Cleveland, interviewed to ascertain the ease with which stations can be tuned in says, "Although there are 705 licensed broadcasting stations in the United States it is remarkable to log 310 of them. The average owner of a five tube set thinks he is getting good results if he gets seventy-five to a hundred.

"Of these as high as fifty are those which he can tune in at will and are not stations which require persistent 'fishing.'

"It is difficult to log more than a hundred stations because so many are broadcasting on the same wave length. Persons living between two powerful stations using the same wave get neither.

"Then, too, static still rules radio to such an extent that only the most determined set owner has the patience to keep at it until conditions are just right for reception of difficult stations."

By J. C. JOHNSEN
Exclusive Central Press Dispatch to New Castle News.

KANSAS CITY, Mo., Feb. 9. — A small home-spun contraption attached to his 7-tube radio set, has resulted in bestowal of the title of "champion air fisherman" on G. E. Gillette, a metal worker of this city who lives in a hotel in the congested districts.

Although he lives in a noisy section where interference should affect distant receptions greatly, Gillette holds the record of having fished out 310 broadcasting stations in North America, Cuba, and Porto Rico.

Last year he logged 250 stations, and, during the international test week, heard one foreign station, 6ST, Trent-on-Stoke, England, and received reception verification affidavit from that station.

Radio "Bug" Six Years

Gillette has been a radio "bug" since broadcasting became popular in 1921.

Through his experiments he improved his radio equipment regularly, and now believes he has the best radio receiving set in this section of the country. A small contraption that rests on top of his receiver is nothing more than a wave trap.

But Gillette does not credit his wave trap for all of his success in getting outside stations through local interference. He says the use of a short outside aerial, careful tuning and persistence are responsible, largely, for his success as an "air fisher."

To the average radio fan, Gillette's record may seem appalling, and, in a way it is. To hear an average of one new station every two hours one operates a receiving set and to hear the announcement from that station calls for almost perfect perseverance.

175 First Month

"After I added the wave trap," said Gillette, "I began picking up stations I never had heard of. I purchased a log book and in the first month I checked off 175 stations.

"After that, more often than not, I duplicated the pickups and the task became harder and I set about to pick up everything on the air just for the fun of it.

"Strangely enough I succeeded best in the lower wave band. I logged at least 80 per cent of my catch below the 350 meter wave."

Gillette explains that concentration is the big requirement in tuning a radio set successfully.

Stick To It!

"You've got to stick to it," declared Gillette, "and listen to every sound.

"With the exception of Saturday I operate the set on the average of four hours a day. Saturday night I stay on until four or five o'clock in the morning."

When Gillette's claim of the "air fishing" title was broadcast here the writer sought a demonstration.

Gillette was "only too glad to do it."

After a bit of preliminary dialing the sound of an organ came from the loud speaker.

Ah-ha, WHT

"That's WHT—Al Carney—Chicago," Gillette announced.

A moment later came the announcement from the Wrigley building broadcasting station, Chicago.

"Now listen to this," said Gillette, twisting a dial. Suddenly the music changed from that of an organ to an air of chili con carne atmosphere.

"Mexico City, CYJ," said Gillette, and soon the General Electric station's announcer there in broken English said:

"You are leestning to CYJ, Mexico Ceety, broadcasting a program sponsored by the Deepartament of Adjucation."

More dial flipping and another announcer was heard:

"Station PWX Havana, the Cuban Telephone & Telegraph Company," said the phantom voice.

Guess Where Next

And just to top off his demonstration he moved the dial another notch or two and suddenly more music floated through the speaker.

At the end of the aria the announcer said:

"KFI, Los Angeles, would be glad to hear from you," and then went on to announce the next number on the program.

"Now I'll get you the hardest station I ever tried to get," said Gillette.

Faintly the strains of a popular song was to be heard. Gillette tried on, moving the dial a little this way or that way and soon it came in as clear as a bell.

After a five-minute reception of jazz music the announcer said that "this is station KJR, Seattle, Washington, broadcasting."

An so on Gillette continued to demonstrate to prove his contention that he was the champion air fisher, and the writer agreed that any person who sits up through Saturday night with a radio receiving set until four or five o'clock Sunday morning should be awarded some kind of a medal.

Look at Child's Tongue if Sick, Cross, Feverish

Hurry, Mother! Remove poisons from little stomach, liver, bowels

Give "California Fig Syrup" at once if bilious or constipated

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Fig Syrup", and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless, "fruity laxative"; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a bottle of "California Fig Syrup", which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by the "California Fig Syrup Company". Refuse any other kind with contempt.

Three Decisions Are Handed Down

(International News Service)

HARRISBURG, Pa., Feb. 9.—The attorney general's department today handed down three opinions to state departments covering certain legal phases of their operation.

Leon D. Metzger, deputy attorney general in an opinion to the department of banking in the case of a Scranton bank consolidation held that the joint corporation enjoys the privileges of the constituent banks.

Persons who present claims to the department of agriculture for damages resulting to cattle from the bites of rabid dogs must have a certificate to that effect, Thomas G. Taylor, deputy attorney general held in another opinion.

The game commission is advised that it may purchase ground costing more than ten dollars per acre to erect upon it a refuse keeper's home, in another opinion by Taylor.

Gang Leader Under Arrest

(International News Service)

BENTON, Ill., Feb. 9.—Charlie Pirger, Southern Illinois gang chieftain who for several weeks has defied the authorities to arrest him, has submitted peacefully to arrest and is held behind the bars of the Franklin county jail here today.

A warrant charging him with complicity in the murder of Mayor Joe Adams of West City, who was shot down at the door of his house Dec. 12 was served at the gang leader's home in Harrisburg.

It might have been worse. Nicaragua was handled without an issue of Liberty bonds.

CONSTIPATION RELIEVED IN 3 MINUTES WITHOUT MEDICINE

Time It Yourself

YOU may be a slave to physics, pills, salts, calomel, or other laxative drugs. Perhaps only a painful enema gives you relief.

You may feel stuffed-up and heavy with waste matter; loaded with gas and feel all bloated up.

Your head may throb, you may feel sick to your stomach, be all fagged out, and despair of ever getting relief.

Yet 3 minutes after the use of this simple discovery called P & S Evacuant for the Bowels, the poison wastes are out of your system without pain, without griping, without taking a drop of medicine, without muss or fuss.

There never was such a true relief for constipation as P & S. Thousands upon thousands who suffered from constipation, bad breath, headaches, poor complexion, poor appetite and sleep are turning to P & S with miraculous success. Doctors, nurses and hospitals use it and give glowing testimony to its efficiency.

P & S Bowel Evacuant is sold with the absolute guarantee that it will relieve your constipation in 3 minutes, or your 50c back. Tube lasts a long time. Harmless. P & S Evacuant is dispensed here by:

Flapper Bandit Robs Mill Worker

Mill Worker Robbed Of Life Savings By Girl Bandit Near Homestead

DOG CATCHERS RUN AFOUL LAW

News Notes From Various Localities Of Western Pennsylvania

(International News Service)

HOMESTEAD, Feb. 9.—Gentlemen who prefer blonds failed to make a convert of Nick Buchak, mill worker, when they robbed him of $900, his life savings, after their pretty blonde flapper companion stopped him on a highway near here and held a shiny new revolver at his ribs. The flapper bandit and her two companions travelled in a luxurious automobile, with a negro chauffeur and all the trimmings, Buchak said.

SWISSVALE—Louis Fugles of Danville, Pa., and Charles Lynch of Sharpsburg, Pa., special dog catchers hired here during a campaign against unlicensed dogs, were dismissed after they were charged by Burgess W. T. Pyle with killing 21 stray dogs by fastening their heads to a plank and crushing their skulls with a pick handle. Fugles, according to Burgess Pyle, described himself as a "dog lover."

MEDIA—Suit for $60,000 damages has been filed here against Mrs. Catherine C. Bartol by Mr. and Mrs. Robbert Elzey and their two small children, Florence and Margaret as a result of an automobile collision. The plaintiffs ask $15,000 damages each for injuries received when Mrs. Bartol's car driven by her chauffeur is alleged to have crashed into the Elzey machine October 31, last.

HARRISBURG—Motor car accidents ran up an injury toll of three children and one man in Harrisburg and vicinity in the past 24 hours. The injured: Pearl Miller, 9; Asper Stovanoff, 14, of Steelton; Louis Sorg, 9; and Eugene Marsh, 28. All were struck by automobiles at street intersections.

YORK—Laborio Spagnola, Italian merchant, was held in the county jail here today in default of what is believed to be the largest bond ever fixed in a liquor case in Pennsylvania. Arrested on a charge of manufacturing illicit liquor, the judge fixed Spagnola's bond at $20,000.

PHILADELPHIA — A priceless relic of St. Teresa, known as "The Little Flower of Jesus," has been stolen from the church of the annunciation here. The relic, said to be a splinter of bone from the arm of the saint, is believed to have been stolen by one seeking cure for some disease. Hundreds of Catholics claim to have been cured through the intercession of "The Little Flower."

BRISTOL—William Johnson, 58-year old recluse was found dead in bed in his home here. The aged man although owning a bank account is believed to have starved to death. He had not been seen since December 24, last.

LATROBE—Fears for the safety of Mrs. Harold Bender, daughter of H. H. Smith of Latrobe, and her baby girl, travelling in the interior of China, were set at rest here by word from Mrs. Bender that they had arrived safely at Shanghai. They suffered many privations enroute, however, the letter said.

SCRANTON—C. S. Goldsborough of New York has resigned as president of the Pennsylvania Coal company and the Hillside Coal and Iron company, both of which have large mines in the anthracite field. The resignation will become effective, it was announced, as soon as a successor can be selected. He has been head of the Pennsylvania company since 1923.

Nearly 1600 Pupils In Senior High Classes

A check up on the number of students in the Senior High School for this semester, shows that there is a total enrollment of 1569. Of this number, 730 are boys, while 839 are girls. Of the 730 boys, 57 are tuition pupils, and only 52 of the 839 girls are from the rural districts. This brings out the fact that although the girls outnumber the boys in the total enrollment, not so many girls come to the New Castle High School from out of town.

Of the grand total in the school, the lower classes have the largest number of pupils. The Sophomores have the largest number in their class rooms, 679 making up their class. The Juniors have 520, while the Seniors have only 370.

The enrollment according to classes in the school follows, giving the total enrollment, and number of tuition pupils:

Rank		Boys	Girls	Total
Sophomore	B	140	173	313
"	" tuition pupils	1	3	4
Sophomore	A	182	184	366
"	" tuition pupils	20	16	36
Junior	B	99	119	218
"	" tuition pupils	4	4	8
Junior	A	157	145	302
"	" tuition pupils	15	17	32
Senior	B	43	49	92

Coast Bank Will Assume Control Of George Young

Bank Will Act As Guardian Of Interests For Conquerer Of Channel

(International News Service)

SAN FRANCISCO, Feb. 9.—With the approval of Mrs. Jane Young, the Pacific Southwest Bank and Trust Co. of Los Angeles today took over the guardianship of George Young, 17-year-old Catalina channel swimmer.

The petition for the guardianship, filed here at the height of the recent differences of opinion between George and his mother, was not withdrawn when mother and son became reconciled.

Young's managers announced the young swimmer may tackle the English Channel as soon as his present theatrical contracts expire.

Officers Elected By Trinity Vestry

Will Function During The Coming Year At The Episcopal Church

At the meeting of the vestry of Trinity Episcopal church held last night officers to serve during the ensuing year were appointed and elected as required by the laws of the Episcopal church. Other matters of importance were also considered and disposed of.

Farmers Petition For Butler-Mercer Road

MERCER, Pa., Feb. 9.—The good road committee which was appointed at a recent dinner held in the Hotel Humes to promote the improvement of the Butler pike between Mercer and Grove City, has lost no time in getting the project under way. Committee from the different townships through which the road passes have had petitions signed asking the state highway department to place the pike on the secondary road system. The petition has received the signatures of all the farm owners along the route and will be forwarded to Harrisburg this week.

Wife Of Novelist Asks For Divorce

(International News Service)

LOS ANGELES, Feb. 9.—Based on the charge of desertion, a petition for divorce from Harry Leon Wilson, novelist and humorist, was on file in superior court here today. The Wilsons were married in 1912 and have two children.

RUPTURE EXPERTS COMING

Demonstrate the Famous Rice Method Free to Callers at Hotel

If you are ruptured, your big opportunity has now arrived. If you want to be free from the slavery of gouging, chafing trusses that make life a burden and misery, then HERE and NOW is the time to act.

The Rice experts, trained under the personal direction of W. S. Rice, of Adams, N. Y., originator of the famous Rice (Non-Surgical) Rupture Method, will be at Leslie Hotel, New Castle, Pa., Friday and Saturday, February 11 and 12, also at the Grand Hotel, Beaver Falls, Pa., Monday and Tuesday, February 14 and 15 to give free demonstration and trial of his safe and painless Method to every man, woman and child who is ruptured.

You have, no doubt, heard and read much about this famous Rice Rupture Method and the wonderful cures which thousands have reported from it. Now, you have the chance to find out all about it—to have it personally applied to your own rupture and learn just what it can and will do in YOUR OWN case. Just call at the hotel and these Experts will give you their personal attention, best advice and complete demonstration entirely free.

Are you tired of that binding, hampering, uncomfortable old truss? Would you like to be done with truss wearing forever? Then investigate the Rice Method and learn the wonderful opportunity for help and cure it offers. Remember it is different from everything else and is accomplishing wonderful results where all other treatments, and even operations have failed. It is modern, up-to-the-minute, abreast of the latest scientific developments. It is the one Rupture Method you are not asked to take on faith alone—the one Method that is positively demonstrated to you right on your own rupture, without any charge whatever.

Don't let this great opportunity get away from you. Your call on the Rice Experts is sure to prove one of the best things you ever did. They will be here only two days then your opportunity will be gone. Remember, you do not spend a penny unless, after having a complete demonstration, you decide this is the Method for you, and you—you alone—are the sole judge of that.

Call any time from 9 to 12 a. m., 2 to 5 p. m., or 7 to 9 evenings. Simply ask at the hotel for the Rice Experts and they will do the rest. Lady Expert attends all lady callers. Don't miss seeing these Rice Experts.

Higgins' Brothers Store Is Being Greatly Improved

Enlargement And Remodelling Work Is Now In Progress

Higgins Bros., one of the leading department stores of this city, is engaged in remodeling and enlarging their store and within the next few weeks will present to the buying public of this city an almost new store in detail and arrangement. Changes are being made, several new departments are being added and the Higgins Bros. store will be in better position to serve the public than ever before.

On the first floor an important change has been made and shopping facilities have been increased through the installation of 10 "island booths" which are used in many of the stores in the larger cities. The appearance of this floor has been made much more attractive through this new arrangement.

Changes have also been made on the second and third floors. A new department has been added on the second floor, and will be opened soon. A one-price ladies' shoe store under the direction of John S. Straub, an experienced shoe man and for many years with the McKelvey company of Youngstown, O., is being established. A new millinery department and a new dress department, both of which will feature low-price lines are being arranged for.

Patrons of the Higgins Bros. store are asked to read the daily advertisements in the New Castle News for details of the remodeling and the special events scheduled by the store.

Nineteen Doctors At Army Hospital Face Rigid Probe

Allege Doctors At Speedway Hospital Sell Prescription Blanks Illegally

(International News Service)

CHICAGO, Feb. 9.—Nineteen of the 31 staff doctors of the United States Army Speedway hospital in Maywood are under investigation in connection with alleged wholesale traffic in liquor prescriptions according to a copyrighted story appearing in the Herald-Examiner today.

They are to be questioned concerning the alleged sale of thousands of prescription blanks to bootlegging druggists at $3 each, the article states.

Each physician, it is charged, disposed of his entire quota, 100 blanks each quarter, in this way, adding $1,200 a year to his income.

The alleged frauds were uncovered by Prohibition Administrator E. C. Yellowley when his office tried to check the patients' named on the prescriptions. These names were found to be fictitious, it was said.

Coast Cutters Speed To Rescue Of Burning Barge

(International News Service)

CAPE MAY, N. J., Feb. 9.—Five coast cutters were speeding early today to the assistance of the barge Marie Beasley, reported on fire near the Fenwick Island lighthouse, 50 miles from here.

The cutters were summoned by a radio message from the S. S. Ballenas, which is standing by the burning barge.

Powerful, Penetrating Antiseptic Oil
Heals Eczema and Other Skin Diseases
Must Give Results in 7 Days or Money Back, Says New Castle Drug Co., Love & Megown, McKee's Kut Rate Store, Eckerd's of New Castle, Inc., Who Will Gladly Return the Purchase Price If It Doesn't Help You.
Make up your mind today that you are going to give your skin a real chance to get well.
You've probably been like a lot of other people convinced that the only thing to use was an ointment or salve (some of them are very good) but in the big majority of cases these sticky salves simply clog the pores and the condition primarily remains the same.
Go to New Castle Drug Co., Love & Megown, McKee's Kut Rate Store, Eckerd's of New Castle, Inc. or any other good druggist today and get an original bottle of Moone's Emerald Oil. The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your skin troubles will be a thing of the past.
Don't expect a single bottle to do it all at once but one bottle we know will show you beyond all question that you have at last discovered the way to restore your skin to perfect health.
Remember that Moone's Emerald Oil is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue and that it must give complete satisfaction or your money cheerfully refunded.

College Boys Work At Brick Cleaning And Do Much Work

(Special To The News)

NEW WILMINGTON, Pa., Feb. 9—When co-operation is the keynote of an endeavor, only success can be forthcoming. Such it was about the Westminster College campus Tuesday afternoon when the men students, numbering more than 200, donned old clothes and stepped into the task of cleaning and piling bricks, the only remains of Old Main, the administration building which was destroyed by fire early January 24.

Not to be outdone, the co-eds of the college, took possession of two women's dormitories near the campus, and kept themselves busy carrying hot drinks to the ambitious workers.

The unexpected display of labor was the result of a student forum Tuesday morning in the United Presbyterian church, at which time the men unanimously adopted a resolution to assist in cleaning the brick so that the college can obtain the highest possible value from them. Classes and laboratories for the day were excused so that all could participate.

Everyone connected with the college, was pleased on learning that the valuables contained in the two safes which had been buried in the debris from the morning of the fire and not removed until late Monday, were intact. Student records, which means their grades and credits, were contained in the safes.

Showing further sacrifice, the New Wilmington Town Men's Club, have vacated their club rooms above the First National Bank in favor of the college. Classes will be held in the rooms throughout the day and reference books for the department of Economics and Business Administration are to be placed there for the use of the students during the day and the early hours of the evening.

The hard part is to be good mannered while putting over the idea that you're important.

Annual Meeting Of Stockholders

East Brook Telephone Company Affairs Are In Excellent Shape

At the annual meeting of the stockholders of the East Brook Telephone Company held Monday evening in the East Brook Grange hall R. L. McCreary whose term had expired as director was re-elected.

The board of directors now are: G. L. Lockhart, president; A. E. McCreary, vice president; George Patterson, secretary; B. F. Ruby, treasurer, and R. L. McCreary, manager.

The East Brook Telephone Company, which is a neighborhood mutual company which connects with the Bell Telephone company through the New Castle exchange increased their stock last year by several thousand dollars in order to rebuild their line.

The entire line was rebuilt, new poles being set in the main line and all branch lines being reset and new wire strung on all the lines. Thus good service has been assured the subscribers.

The rate of rentals was also increased in order to meet the expenses of the rebuilding and upkeep of the line, also this will assure the stockholders an annual dividend within a year or so after the indebtedness is cleared off incured by the rebuilding of the line.

The report of the treasurer shows that this indebtedness has been already greatly reduced and as soon as all rentals are paid up to date the entire indebtedness should be cleared off in a few months.

TRY MAGNESIA FOR STOMACH TROUBLE

To Neutralize Acidity and Fermentation. Prevents Indigestion, Sour Gassy Stomach.

People who suffer from indigestion usually have tried pepsin, charcoal, drugs and various digestive aids and know these things will not cure their trouble—in some cases do not even give relief.

But before giving up to chronic dyspepsia, just try the effect of a little Bisurated Magnesia—not the ordinary commercial carbonate, citrate or milk, but pure Bisurated Magnesia which you can obtain from practically any druggist in either powder or tablet form.

Take a teaspoonful of the powder or four compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat. You can enjoy your meals without a fear of indigestion.

DAZZLING TEETH

Get Pepsodent—Works Wonders by Clearing Film Coat from Teeth

TEETH seldom are naturally "off color." Most often they're merely coated with a film that forms on teeth and absorbs discolorations from food, smoking, etc. By clearing it off, one's whole appearance may be changed.

Old-type dentifrices failed to remove that film successfully. That's why brushing has failed you. Now leading dentists urge a new-type film-removing dentifrice called Pepsodent, for this purpose.

Results are quick and surprising. Film coats go. Teeth whiten; sparkle like jewels. Bacteria that thrive in film are combated; tooth decay, gum troubles and pyorrhea thus scientifically fought.

To prove those results, accept 10-day tube free. Or get full-size tube for few cents at your druggist. Do this in fairness to yourself.

DINNER STORIES

A Scotsman was leaving on a business trip, and he called back as he was leaving:

"Good-by all; and dinna forget to tak' little Donal's glasses aff when he isna' lookin' at anything."

The submarine commander watched the periscope move upward out of its housing. Quickly he viewed the onrushing destroyer upon which he was making a practice approach.

"House the periscope," he ordered as he turned to an indicator.

A natty young Ensign, new to the lore of the sub-sea men, stepped jauntily forward, peered into the eye-piece and enthusiastically reported: "FINE CAPTAIN, FINE."

On the big curve coming into the Irish wayside station, the train stopped longer than usual one morning, and the guard descending from his van, walked up to the driver. "What are ye stoppin' for?" he inqured. "Sure, and can't ye see the signal is agin me?" retorted the driver. The guard snorted contemptuously. "It's mighty particular you're gettin' all of a sudden," he said.

The children of the family were, according to their respective accounts, all first in something at school. Tommy was first in reading, Alice was first in arithmetic, Sammy in sports, and so on. Janet alone remained silent.

"Well, Janet, how about you?" her uncle asked. "Aren't you first in anything?"

"Yes, uncle," said Janet. "I am first out of the building when the bell rings."

A legislator addressing a class of fifth graders in a Sunday school stressed the importance of putting your mind on what you are doing.

"You can't do anything without thinking," he said. "Can any of you tell me anything that can be done without thinking?"

"Pumpin' water," piped up a little 10-year-old girl from the orphans home.

A homesick Irishman had got a job as a crossing guard for a railroad. The foreman handed him a red flag and a green flag, and told him, "Whenever you see a train coming, get out and wave this red flag."

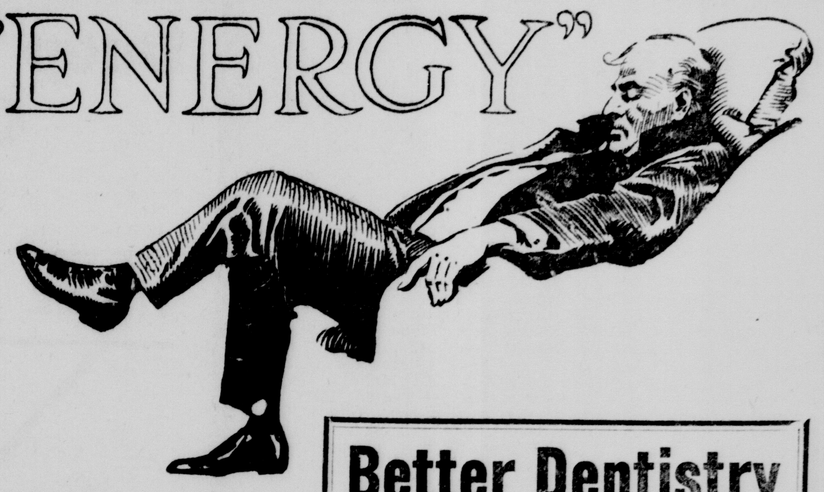

"Git away wid yer job!" exclaimed Pat; "Me wave a red flag when Oi got a grane one handy? I'll starve first."

Cigarets and bobbed hair are going out of style in Paris just about the time they began to be moral.

New Castle Man Seeking Brother Strangely Missing

BEAVER FALLS, Pa., Feb. 9.—A search for Joseph Poulain, aged about 35, of Pennsylvania avenue extension, North Rochester, who left his home Monday, December 26, and has since not been seen or heard from by his family, led Sunday to the reservoir of the Monaca municipal water works on Monaca Heights, where it was supposed the body of the missing man would be found. At the request of a brother of Poulain who came here some time ago from New Castle to aid in the search for his brother, the reservoir was drained Sunday by order of the Monaca town council but the body was not found.

SELLING OUT SIGN SENDS MERCHANT TO MIAMI JAIL

MIAMI, Fla., Feb. 9.—Because he placed this sign in his novelty store, "Selling out. Going back North where men are men and rents are reasonable," B. Lewis Kaufman, 26, of Baltimore, arrested here for disorderly conduct, was sentenced to serve 10 days in jail.

Demand he remove the placard brought a crowd, also a policeman. When arraigned, the merchant explained it was an advertising stunt, not an affront to the city. The judge said he deemed the sign a slur on Miami and held that it constituted disorderly conduct.

Dight To Restore Smull's Name To State Handbook

Publication To Be Restored To Former Status—Notes Of Capital

(International News Service)

HARRISBURG, Pa., Feb. 9.—The state legislative handbook, the standard publication containing the personnel of the various state departments data on the government and election figures, again will become "Smull's" during the Fisher administration. It is planned to abolish the title conferred upon this book by the Pinchot administration by amending the administrative code. The code established the name as "Pennsylvania State Manual."

From 1876 until the Pinchot administration four years ago, the book made its appearance annually. During the past four years it was printed biennially. In order that persons acquainted with the old book might not be misled the words "Formerly Smull's" were printed under the title.

The handbook got its title from William P. Smull, who for years published it for the state. When Smull died some years ago the copyright passed to Herman P. Miller, senate librarian. The state several years ago purchased the copyright from the librarian.

John C. Dight the new director of publication, believes that the old name of the handbook which means more than the longer title in the law offices and newspaper rooms of the state should be restored.

Rep. Carl E. Marsteller of Mercer county, introduced a set of resolutions on the death of Rep. Edward Lee Allum of Sharon in the house of representatives. The resolutions were adopted and a copy forwarded to the family of the late representative by the chief clerk of the house. Allum died in Harrisburg the first week of the present session of the general assembly.

A bill to permit counties in Pennsylvania to decide by referndum vote whether Sunday amusements such as baseball, moving picture shows and golf shall be permitted within the precincts was introduced in the house by William H. Voltz of Philadelphia. Under the provisions of the Voltz bill the state Sunday Blue laws of 1794 which prohibit all worldly amusements and labor would be annulled thus giving the counties of the state jurisdiction. Provisions of the Blue Laws have been upheld by the United States Supreme court.

Refort comes that action on Muscle Shoals is in the offing, but we should not rush into this matter blindly and without due consideration.

Japan Plans To Spend Millions On Her Colonies

(International News Service)

TOKIO, Feb. 9.—Japan will will spend approximately $185,746,000 on the administration of her colonies during 1927 if the Diet approves estimates of the Finance Ministry as submitted in the budget. Korea, according to these estimates, is to get $104,800,000 and Formosa $59,799,500. The balance is to be distributed among Karafuto, the Kwantung Leased Territory, and Japanese possessions in the South Sea islands.

Finds Family After 2 Years In Siberia

CONSTANTINOPLE, Feb. 9.—Julius O. Chevalier, an American who spent two years in Russian prisons, and his two children, who had awaited here their father's release from Siberia, joyfully shook off the Old World dust yesterday, embarking on the steamship Asia for America.

Chevalier, who represented an American corporation in Russia, was arrested at Batum in November, 1924, as he was about to leave the country. He was taken from prison to prison and eventually released through the intervention of friends on his behalf. His wife died in 1925.

Here's Real Relief From the Torturing Pains of Neuritis

Men and Women Everywhere Seldom Fail to Get Quick Relief from Pain and Suffering

When you've tried everything you can think of and nothing seems to even relieve those piercing, agonizing pains, just go to some good druggist and get a bottle of Allenrhu Special Formula No. 2. Be sure you get No. 2 which comes in capsule form.

Take these little dark green capsules as directed and notice how in about 24 hours they have considerably reduced, if not entirely banished those persisting nerve racking pains that have caused you many sleepless nights.

While this particular formula was compounded for the purpose of conquering painful, Gouty conditions and what is known as Rheumatoid Arthritis—a knotty, painful swelling of the joints—it has proven wonderfully successful in most forms of Neuritis and Sciatic Nerve Pains.

You needn't be afraid of its containing dope of any kind—it doesn't. Such things are only makeshifts and can at the best give only partial relief.

Be sure you've got Neuritis and then get Allenrhu Special Formula No. 2. McKee's Rut Rate Store, Eckerd's of New Castle, Inc. sells lots of it.

Harris Places Election Bills Before Senate

Second Series Of Election Reforms Offered By Allegheny County Man

EIGHT NEW BILLS IN SECOND GROUP

(International News Service)

HARRISBURG, Pa., Feb. 9.—The second series of bills sponsored by Senator Frank J. Harris, Allegheny, to bring about drastic election reform in Pennsylvania made its appearance in the Senate Tuesday. There were eight in the group. They cover practically all angles of election about which criticism has centered and which are claimed to be those which under present conditions make fraud possible.

The first of the measures would make it impossible for election boards to keep ballot boxes for days on the pretense that the count was not completed. It is aimed at a condition which in Allegheny county created considerable criticism during the primary last May.

The bill provides that election boards must continue to count without interruption all ballots following the closing of the polls. It directed that all ballot boxes must be delivered at the county courthouse not later than six p. m. on the day following the election.

Another would change considerably the conditions under which a voter may be given assistance. It provides penalties for showing a ballot to any unauthorized person or for failing to make every effort to keep each individual ballot secret.

On the petition of five voters and the depositor of $25 a county court would be compelled to open boxes suspected of containing fraud under the provisions of another of the Harris measures.

One of the bills provides drastic penalties for a number of the more common election law infractions, while another specifies the use of a perforated ballot, which it is believed would make fraud more difficult.

Dr. Percy Grant Has Appendicitis

(International News Service)

NEW YORK, Feb. 9.—The Rev. Dr. Percy Stickney Grant, former pastor of the fashionable church of the ascension, and famous modernist, is resting comfortably today at the Northern Westchester hospital, Mt. Kisco, where he underwent an operation yesterday for acute appendicitis.

Your Income Tax

Income Tax in a Nutshell:

WHO? Single persons who had net income of $1,500 or more or gross income of $5,000 or more, and married couples who had net income of $3,500 or more or gross income of $5,000 or more must file returns.

WHEN? The filing period ends March 15, 1927.

WHERE? Collector of internal revenue for the district in which the person lives or has his principal place of business.

HOW? Instructions on Forms 1040A and 1040; also the law and regulations.

WHAT? One and one half per cent normal tax on the first $4,000 in excess of the personal exemptions and credits. Three per cent normal tax on the next $4,000. Five per cent normal tax on the balance of net income. Surtax on net income in excess of $10,000.

No. 21

Deductions for depreciation form an important item in the returns of many taxpayers, and are the subject of frequent inquiries. The word "depreciation" is not used by the revenue act of 1926, which provides for a "reasonable allowance for the exhauston, wear, and tear of property used in the trade or business, including a reasonable allowance for obsolescence." For convenience, such allowance usually is referred to by regulations relating to the income tax as depreciation.

In claiming a deduction for depreciation several fundamental principles must be observed. The deduction must be confined to property actually used in the trade, business profession, or vocation. In general, it applies to the taxpayer's capital assets—buildings, machinery, etc.—the cost of which can not be deducted as a business expense. A building or machine gradually becomes old and worn out. On account of this depreciation the value of such assets is decreased. A loss is thereby sustained, for which the taxpayer is entitled to recognition in making his return of income.

Depreciation may be claimed on all business property, which includes not only buildings and machinery of a permanent character, but automobiles, farm tractors, mine and mill equipment, office furniture, and books. A lawyer, doctor, or other professional man may not charge off as a current expense the cost of a library used wholly in his profession, this being a capital expenditure and the library a capital asset. But he may deduct an allowance for depreciation, based upon the useful life of the library.

LETTERS TO THE NEWS

New Castle, Pa., Feb. 8, 1927.

New Castle News:

I see by the News some time ago, little children of two and three years of age, can say the A, B, C's. Now here is one seventy-five years old who put the alphabet in rhyme.

Did you ever any time,
See the alphabet in rhyme;
A, B, and C,
D, E, F, and G,
H, I, J,
Then comes K,
And L, and M,
Along with N,
And O, and P and Q,
R, S, T, and U,
V, and W,
Which to me,
Looks more like a double V,
Now you see
X, Y, and Z.

AS TO WAITERS

To Editor of The New Castle News
Sir: Alas for the passing of the old-time man waiter! The man waiter used to earn his "tip". He would draw out our chair for us, serve our meal in a proper and becoming manner, keep our water glass filled, hover attentively near us ready to heed our slightest gesture of want and help us on with our overcoat when we had finished our meal.

But now! O tempora, O mores! Some disinterested girl, a so-called "waitress", comes up to us, eyes us as if she suspected we had some dark design upon the silverware, condescends to take our order, dumps the food upon the table, and then vanishes to parts unknown.

She does not earn her "tip", but accepts it nevertheless, and accepts it as a right, and not with the graceful manner and urbane smile of the old-time waiter who, poor man, earned his gratuity if ever a man earned anything. However, I believe that in some places waitresses are paid fair wages and are not supposed to accept tips.

Why is the girl waitress a poorer institution than the old-time man waiter? For two reasons. In the first place, as is well known to observant persons, men have more conscience where money is concerned than women have. The man waiter desired to earn his tip, to give an adequate return for value received. The average girl waitress is not controlled by such a desire. In the second place the sexual element obtrudes to prevent a girl waitress from being too attentive to a diner's wants, lest he misconstrue her motive, for girls think that men should wait on them, and, above all, are charry of making any advances to men or of doing anything that could be so construed.

Alas, and the "alas" comes from my heart, I fear that the modern woman movement is a step backward and not forward. Alas! No, not a lass, but a man, at least for a waiter.

Yours respectfully,
CHARLES HOOPER.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persisent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (Adv.)

AN EASY WAY TO LOSE FAT

The right way to lose fat is by combating the cause. By correcting a gland which largely controls nutrition. No abnormal exercise or diet is required. Simply take Marmola Prescription Tablets, four a day, until proper results are accomplished.

Marmola is the scientific method. It has been used for 19 years. The normal figures that it brings are seen in every circle now. And the use has grown, through those results, to very large proportions.

All druggists supply Marmola at $1 a box. Each box contains a pamphlet which explains the results you see and feel. Go get it now. Learn what others know about it. You will be delighted.

Sure Way to Stop Night Coughing

A Treatment That Ends Night Coughs In 15 Minutes

Persistent night coughing is usually due to causes which cough syrups and patent medicine do not touch. A remarkable prescription known as Thoxine, working on an entirely different principle, goes direct to the cause, and is guaranteed to stop the stubbornest cough within 15 minutes. One swallow is all that's needed. If it fails, get your money back. No chloroform or other harmful drugs. Safe for children. Equally good for sore throat for which purpose it is far superior to gargles. 35c., 60c. and $1.00. Sold by Love & Megown, Terminal Drug Store and all other good drug stores.

U. S. TAX SUIT UNROLLS PANORAMA OF FORD'S GOLDEN SUCCESS

BEGAN HIS CAREER AS A MECHANIC — HENRY FORD — PHENOMENAL SUCCESS — EDSEL FORD — SEN. JAMES COUZENS

Although his wealth now is estimated by accounting experts to have reached the two-billion dollar mark, Henry Ford began his career in an inauspicious manner as a mechanic. He was at middle age when he made a start toward becoming the richest man in the world.

In a tax recovery suit against former minority stockholders in the Ford Motor Co., there is revealed a wonder story of industry and finance, astounding even those who thought they knew the whole of the magic tale in which Henry Ford is the leading character.

With an original investment of $28.000, somewhat more than a score of years ago, the company had grown so much by 1916 that New York bankers offered $500.000.000 for the mammoth auto concern. Ford laughed at that—and rightly.

For his son, Edsel, turned down a billion-dollar offer from the same bankers nine years later (1925) This offer, made again in 1927,—and three times all told — still stands. And the Fords laugh again for the elder Ford alone is reported to have more than $300,000,000 in cash in banks.

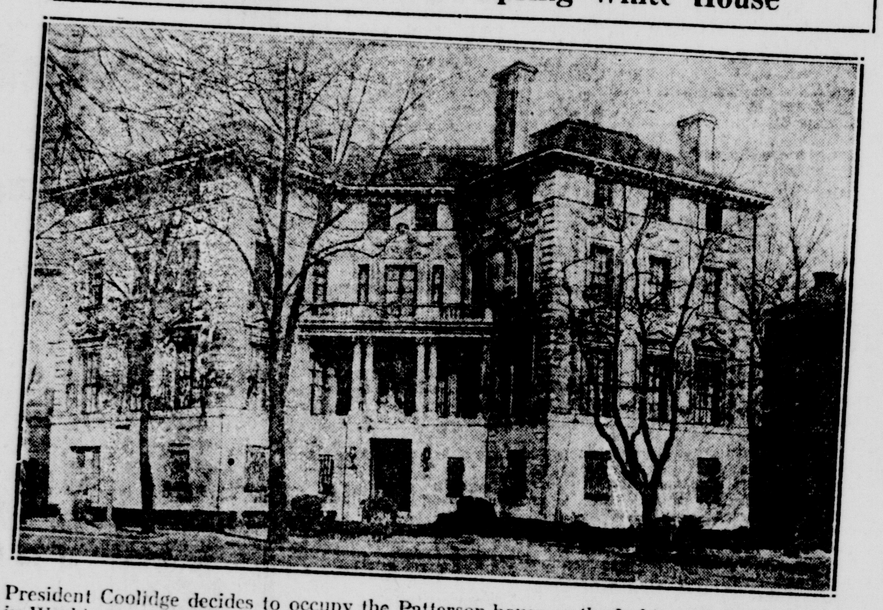

And his holdings throughout the world are such that his wealth, including his son, Edsel's piles up at the rate of $190.25 every minute of the year—or at the stupendous rate of $273,974 a day. Estimating his fortune at only $1.500.000,000, if it were invested at five percent, it would bring Ford $75.000.000 a year in interest.

This Aladdin's tale has been unfolding itself at hearings before the Board of Tax Appeals, first in Detroit, then in Washington where former minority stockholders of the Ford company, among them United States Senator James Couzens of Michigan, are contesting a $30,821,000 tax claim by the government.

When Ford bought out the minority stockholders in 1919 they paid income on the "profits," represented by the difference between the $12.500 a share they received and the $9.500 a share (approximately) which an internal revenue appraiser decided it had been worth in March, 1913 The Treasury Department now claims the stock was worth only $3.500 a share in 1913, and has made a supplemental assessment based on a profit of $9.000 instead of $3.000 a share.

This would mean the collection of $30,821,000 taxes.

Raid Reveals Still Mash And Liquor

District Attorney's Office Attaches Visit Oakland District

Allege They Found Still, Two Barrels Of Mash And Liquor

Constables Sharp Leslie, James Ellison, William Edwards, Michael Mescal and Thomas Armstrong, attaches of the district attorney's office last night conducted an alleged liquor raid at the residence of George Vosicivich, Union township, arrested Vosicivich and placed him in the county jail on a charge of violating the Snyder act.

According to Sharp Leslie affidavits had been made that Vosicivich had violated the liquor law and a search warrant was issued at the office of Alderman William E. Marshall last night.

In due conformity of the law the squad visited the residence, located along the Pennsylvania railroad in the Oakland district and when the door was not opened an entrance was made and a still with two barrels of mash and finished product was discovered and confiscated.

Hold Five For Questioning In Killing Of Man

Washington County Officials To Question Five Men Regarding Slaying

(International News Service)

WASHINGTON, Pa., Feb. 9.—Washington county authorities today held five men, three of them brothers, on technical charges here for questioning in connection with the slaying of Louis A. Knapp, coal and iron policeman at Vestaburg, near here, and the probably fatal shooting of Paul A. Fox, Knapp's companion.

The men, Roy Wenrich, 31, Warren Wenrich, 30, Robert Wenrich, 20, Frank Spaford, 21 and Delbert Kinnian, 23, all of West Brownsville, are also to be questioned in connection with an alleged bootlegging "ring" which districty attorney Howard W. Hughes declared existed in the neighborhood of West Brownsville.

Knapp was killed and Fox wounded when they attempted to stop two men they believed to be bootleggers, bringing liquor into the mining camp at Vestaburg.

Sharon Railway Property Sold

Old Line From New Castle To Hubbard Is Disposed Of Today

R. N. Graham, representing the Pennsylvania-Ohio Power & Light company today bid in the property, formerly owned and used by the Sharon & New Castle Street Railway company at a public sale conducted by Receiver Rufus Moses here. Graham's bid was $17,660.

The property consists of real estate, rights of way, franchises, excepting corporate, rails, ties, poles, wires, rights, privileges, licenses, grants, buildings, accounts, demands and choses in action.

The property bid in at the Traction company building begins at Sampson and State streets and extends 12 miles to a point in the Ohio-Pennsylvania state line.

It was sold subject to the interest, if any, which the city of New Castle may have in that part or portion located in or along Sampson street and also subject to reservations, covenants and conditions contained in the several original deeds conveying the property to the predecessors in title of the Sharon & New Castle Street Railway company, but free and clear of all other liens and incumbrances.

The sale was made pursuant to an order issued by the U. S. district court for the western district of Pennsylvania, December 24, 1926, in Equity cause, wherein the New York Trust company was the plaintiff and the railway company, defendant.

It was explained before the bidding was started by Auctioneer Byron Cover that the railway company owned all of the right of way excepting 12 grants which will revert to the original owners.

Receiver Moses stated that a maxium of 60 days would be allowed to remove rails and other equipment. It was also stated that the successful bidder, in the opinion of an attorney, evidently acting for the receiver would not have to be removed unless the bidder desired to do so.

Auctioneer Covert drew a first bid of $2,500 which was gradually increased until it reached around $14,000. After this amount was bid, instead of $500 raises being made the ante was raised in 50 and 25 dollar amounts until finally a five dollar raise won the award for Graham.

Hockman Denies Any Connection With Jewel Robbery

Admits Planning Clarion Bank Robbery Police Here Report

Frank Hockman, arrested here in connection with the Clarion County National Bank robbery on Monday morning, has admitted, according to the local police authorities, to having planned the whole affair.

He denies any connection with the Mather Brothers Company jewelry robbery, however.

Progress is being made, however, by the police in the investigation of the Mather robbery and today Chief of Police Henry Dysart and Lieutenant of Police U. G. Harper, and other local people went to the Butler Barracks and may possibly go on to Clarion county, where some of the men implicated were taken yesterday by the State police, in an effort to clear up some important clues now in the hands of the police relative to this local robbery.

Searching Message On Character By Rev. Morris Bundy

A searching sermon was preached Tuesday evening by Rev. Morris Bundy, the blind evangelist at Dewey avenue Free Methodist church. His subject was "A Foundation for Building Christian Character".

In order to have a firm foundation to build upon, God's gospel rake, shovel and pick must be used, the speaker declared, to clear away all the rubbish and debris and every snag must be removed before the rock is found.

Rev. Bundy said that man is subject to the storms and adversities of life and is not safe unless he has found refuge in Jesus. There are many wrecks along the stream of life because man has built upon a shifting foundation. God's method of building is best. If we cannot stand the storms of time what will we do when the great day of His wrath is come.

Troop A Men To Transfer To New Unit

Will Comprise New Mounted Engineers To Be Located Here

While Troop A, 104th Cavalry, has been definitely transferred to Clearfield, Pa., there is now every reason to believe that New Castle will continue to have a military organization under the supervision of the state and federal military authorities and that the present members of Troop A will be transferred into the proposed new unit here, namely a mounted engineers corps.

This unit will be something new in the state and New Castle is accorded a rather unusual honor in having the new type of military organization organized here.

Second Lieutenant Paul W. Keely, officer in charge of Troop A, today stated that while there was nothing definite for publication, admitted that there was a move on foot, which meant the retention of a military unit here and that the members of Troop A would not be discharged from the service, on account of the troop being moved to Clearfield, but will be transferred to another organization to be located here, which would be a mounted organization.

Lieutenant Keely stated that all troop property in the hands of present and former members of the organization is to be returned to the arsenal at Harrisburg the first of the coming week and the horses are all ready for shipment to Mt. Gretna.

An order issued by the lieutenant calls upon all present and former members to be at drill this evening at 7:30 o'clock and turn in all troop property in their possession, in order that it may be sent to Harrisburg.

Although Troop A is leaving the city, so to speak, it is considerable satisfaction to the people of the city and the officers in charge to know that the final federal inspection was given a very satisfactory rating by the war department. This was the advice given Leieutenant Keely by Captain Beary, who was here to inspect the equipment prior to returning it to Harrisburg. It is especially gratifying to Lieutenant Keely to know that the efforts of the present officers in charge of the troop has not been without results and it is thought that had he been in charge at an earlier date that the troop would not now be leaving the city.

Senate Opposes Reconsidering Of World Court

(International News Service)

WASHINGTON, Feb. 9.—The senate voted overwhelmingly this afternoon against reconsidering the questions of American adherence to the world court.

A motion by Senator Trammell (D.) of Florida to discharge the senate foreign relations committee from further action on his resolution withdrawing the United States from the court was tabled by a vote of 59 to 10. The action of tabling in the senate kills any proposal so treated.

Both Senator Robinson (D) of Arkansas, the minority leader, and Senator Borah (R.) Idaho, leader of the anti-court fight, urged this action.

Three Companies Form Big Merger

(International News Service)

NEW YORK, Feb. 9.—Directors of the Remington Typewriter company today approved the terms of consolidation with Rand-Kardex Bureau, Inc., and the Dalton Adding Machine company. The consolidation of these companies, together with a number of unidentified companies, will create a $50,000,000 organization for the production of typewriters, adding machines and business systems of various kinds.

A new holding company, Remington Rand Inc., will be formed to hold and consolidate the various properties; and the capitalization of the new company will be made up by an exchange of the outstanding stocks of the existing companies.

Per Capita Tax Repeal Bill Due For Hot Reception

Sponsor Recalls Measure From Legislature At Session—Sent Back To Committee

(From News Bureau)
(State Capital)

HARRISBURG, Pa., Feb. 9—For a time at least, House Bill 29, designed to abolish the $5.00 special per capita tax for school purposes is in no danger of being brought up for passage. On Monday night, Representative Jones of Luzerne county, the father of the bill, asked that it be recommitted to the committee on counties and townships, for amendment.

His action was apparently brought about by a battle on the bill which was waged in the lobby of the Penn-Harris hotel. Several members of the house surrounded Mr. Jones and began debating the merits of the bill and presented such arguments against it, that he followed the advice of a member and had it recommitted. A fight is promised in the committee room.

One of Mr. Jones' colleagues who is not in favor of the bill struck what is probably the keynote of the reason for its presentation when he said, "the whole trouble is that in Luzerne county we have too many tax treasurers. Each one of them wants to be a political leader and when a man or woman refuses to pay the special tax, the treasurer feels that he might be jeopardizing votes by enforcing the law against them. Now they want the General Assembly to make it easier for them."

Members from third class cities are especially bitter against the bill, and the sponsor of the original per capita tax bill, Charles F. Armstrong of Armstrong county, formerly of New Castle has promised a warm time if the bill to repeal his bill, ever gets out onto the floor.

Druggists Meet At Pittsburgh

Scott Paisley, New Castle, Presides At Sessions Of Conference

(International News Service)

PITTSBURGH, Feb. 9.—Retail druggists from Western Pennsylvania and Eastern Ohio opened their quarterly convention here today. A business meeting featured this afternoon's session.

Scott Paisley of New Castle, president of the Druggists' association, presided at the session.

Other officers of the organization include Otto Schmitz of Erie, vice president; Julius F. Nickum of Sharon, secretary, and E. H. Sonne of Oil City, treasurer.

A banquet is to be held tonight at which Prohibition Administrator John D. Pennington and Sir William G. Jones, Canadian business expert are to be the principal speakers.

Declamation—Flying Jim's Last Leap.
Debate—Resolved, That Athletic activities are more beneficial than literary activities.

Councilmen Go To Harrisburg

Councilmen Louis Genkinger, D. O. Davies and W. V. Tyler today are in Harrisburg attending a hearing on the request of the city of New Castle before the board of water power and resource in which the city is asking that channel lines be established in the Shenango river.

Due to weighty police matters that have confronted local police during the past week, Mayor Dunlap, who by virtue of his office is superintendent of police, could not attend the session.

Million Persons Visit State Forests

(International News Service)

HARRISBURG, Pa., Feb. 9.—Nearly one million persons visited the state forests of Pennsylvania during 1926, complete reports compiled here today at the Department of Forests and Waters showed. It is the largest number that has visited the state forests since Pennsylvania began its forest land purchase program.

At the same time the department made public a detailed report showing that 560,525 trees had been planted during the year on state-owned forests.

Reports on visitors to the forests placed the number of hunters at 215,700, those who used the forest parks at 145,000 and those who used public camps at 111,824.

Scotch pine led all other species of trees in the state-owned land planting. Of that species 233,850 were set out. There were 144,400 red pine, 79,600 white pine and 39,500 pitch pine planted. The rest of the planting was scattered among other species, mostly soft woods.

During the past seven years the plantings on state land have failed to reach the million mark. Beginning with 1910 and ending in 1919, such plantings always surpassed a million trees, and in 1918 the mark reached more than six million.

The state now has almost 50,000,000 young trees which will be ready for planting during the next two years. There are almost 5,000,000 in the co-operative nurseries maintained at the state institutions and more than 44,000,000 in state nurseries.

Woman Swimmer Issues Challenge For Channel Race

Mrs. Myrtle Huddleston Would Race Sullivan For Purse Of $25,000

(International News Service)

LOS ANGELES, Feb. 9.—Announcing he would do anything to please a lady, Henry F. Sullivan, famous swimmer of Lowell, Mass., declared today he had accepted the challenge of Mrs. Myrtle Huddleston, formerly of Mattoon, Ill., to race her across the chill waters of Catalina Channel.

No date has as yet been set for the event. A purse of $25,000 raised by friends of the two swimmers will be put up as a prize, it was announced. Charles Toth of Boston, one of the conquerors of the English Channel, declared he would place $5,000 of his money on Mrs. Huddleston.

Druggists Go To Pittsburgh

Lawrence county is represented by some 40 or 50 druggists at the meeting of the Western Pennsylvania Retail Druggists' Association which meets in Pittsburgh today.

Representatives of all the druggists of 21 counties of Western Pennsylvania as well as several of the Ohio counties bordering on this state are expected to attend the meeting. An organization is planned that will include an association of all druggists in this part of the state.

Liberals Win Victories, Claim

(International News Service)

PUERTO CABEZAS, Nicaragua, Feb. 9.—Capture of the important towns of Chinandega and El Sauce, in western Nicaragua, were claimed by Liberal headquarters here today.

The Sacasa headquarters declared that the capture of these towns forecasts complete military control by the Liberals of all parts of Nicaragua which have not been neutralized by the American marines.

The Liberal claim, however, is denied by the Conservatives who have already celebrated their claimed victory over the Liberals in Chinandega.

These conflicting reports sifted down appeared to result in general opinion that the Liberals, if still holding out in Chinandega, have only a small garrison there and it appears that the Diaz forces are in control of the greater part of the city.

The casualties have been heavy in the fighting there and one report has it that there are 300 dead and 400 wounded on both sides.

THE RUSSIAN SYMPHONIC CHOIR (shown above) is unequalled in vocal singing. It is not a chorus in the ordinary sense of the word but a vocal orchestra, the like of which has never before been heard in this country. It is in demand from Coast to Coast and everywhere it sings the critics pronounce it the most thrilling group of singers they have ever heard. It is positively the most expensive vocal organization ever brought to New Castle. A contract for these twenty two men and women means an expenditure almost as great as an engagement by the United States Marine Band of fifty pieces.

Thru the efforts of The Scottish Rite Auditorium Association and The Educational Art Society, any boy or girl of the public or parochial schools of New Castle may hear both the

RUSSIAN SYMPHONIC CHOIR
and the wonderful
MINNEAPOLIS SYMPHONY ORCHESTRA
(NEARLY ONE HUNDRED PIECES)

for only fifty cents. One ticket at 50c admits to both concerts. Tickets at the door for children for either concert are 50c each. (High School students are afforded the same low price.)

Develop an appreciation for the very best of entertainment in your boy or girl, by seeing that they get the chance to hear these wonderful organizations when they come to the city. Tickets will be available at the various schools tomorrow morning. If for any reason they are not, tickets may be obtained by sending a messenger to Senior High school and applying to Mr. Patterson in the main office (telephone 630).

Johnston, of the National Tube Company, is president, are planning for a royal good time at the Shelby Club House Thursday evening of this week, February 10. Prof. Earl Davis, principal of the High School, who is chairman of the program and entertainment committee, has arranged musical and literary program. In addition to the local talent, the Misses Gertrude Lee, Hazel Watson and Jessie Brell of the Public Speaking Department of Geneva College will entertain the alumni and their friends with humorous monologues and readings. Miss Gyla MacDowell, Dean of Women in Geneva, will speak of the special work of the American Association of University Women and also of what is being done for Geneva girl students and women students.

The president of the college, Dr. M. M. Pearce, and his wife and also the corresponding secretary of the alumni asociation, Dr. James S. Martin, will be present to speak of the past achievements, present status and future possibilities of the college.

Following the program which is to begin promptly at 8 p. m., there will be a social hour and the serving of light refreshments.

There are over a hundred former Genevans in Ellwood City, as well as the fifty or sixty now in the Extension and regular Day schools. All are cordially invited to Thursday night's meeting as well as all other friendly to the college.

Benefit Card Party Is Well Attended

ELLWOOD CITY, Pa., Feb. 9.—Mrs. Charles Stiner, and her committee of twelve ladies who sold tickets and pushed the Benefit Card Party which was sponsored by the Ewing Park Parent and Teachers association over the top last night to the tune of 26 tables, feel greatly rewarded for their efforts.

The affair took place in the school building, which was decorated in Valentine colors. Fourteen tables of bridge were in play, with high schore honors going to Miss Alice Moser and John Lindgren. Twelve tables of Five Hundred were occupied with score awards going to Mrs. Hoffman of New Castle and George Nicklas.

The pleasant affair concluded with the serving of light refreshments by the committee.

If You Need a Tonic, Get the Best

—Robbins Studio

Bradford, Pa.—"When I was a young girl I was puny, frail, anemic, listless. After taking various medicines without improvement the druggist finally advised my mother to give me Dr. Pierce's Favorite Prescription and that proved to be the very best of all. It built me up in health, my nerves were better and I developed into strong womanhood. It took several bottles to do this but it was well worth the price. My health has been all that I could have desired throughout wifehood and motherhood. Dr. Pierce's Favorite Prescription is the tonic I am advising my own daughters to take at this time."—Mrs. Laura Wagner, 121 Barbour St.

Snow And Rain Storm Raging In Southwest

Snow Over Wheat Belt Averages 1 To 2 Inches Says Weather Bureau

(International News Service)

KANSAS CITY, Mo., Feb. 9.—From western Kansas to north Texas a cold wave was sweeping the southwest today with heavy snows reported in Kansas and rain, sleet and snow in Oklahoma and north Texas. Snowfall here was light.

A minimum of 16 degrees was reported from Amarillo, Tex., with an 18 degree minimum here. Snow over the wheat belt was reported at 1 to 2 inches by the weather bureau here.

Fizzles In Chicago

CHICAGO, Feb. 9.—The threatened cold wave proved a fizzle when it struck middle western sections today, relatively mild temperature, varying from 15 to 25 above being recorded.

The official government forecaster said the lowest temperature Chicagoans and residents of adjacent areas need fear tonight was 18 above zero.

"National Origins" Issue Runs Into Slight Wrangle

British Immigration Would Increase Under New One-Year Ruling

(International News Service)

WASHINGTON, Feb. 9.—Fate of the National Origins" provision of the immigration law appeared uncertain today as the result of a sharp disagreement between senate and house immigration leaders.

With the senate proposal to extend the date on which the "National Origins" provision would become effective for one year to July 1, 1928, the home immigration committee is proposing to abolish the plan altogether.

Inability of senate and house to reconcile their differences will result in the "National Origins" plan becoming effective unless President Coolidge exercises his discretionary power and refuses to proclaim the new quotas.

British immigration would increase, while German and Scandinavian quotas would be greatly decreased under the "National Origins" plan.

Report Americans In Portugal Safe

American Minister Dearing Makes Report Of Revolt To Washington

(International News Service)

WASHINGTON, Feb. 9.—All Americans and the legation staff in Portugal are safe, American Minister Fred M. Dearing reported to the State Department today.

He said that 'heavy fighting and constant sniping continue between the government and revolutionary forces, with the government apparently victorious in Oporto and slowly winning in Lisbon.

The State Department has not determined whether to send warship to Portugal to aid Americans.

An earlier message said: "Situation at Lisbon very serious and probably will continue so for several days. The minister has been obliged to abandon the legation, which was repeatedly struck by rifle and machine gun fire."

What this particular winter has created a demand for is a thermometer that can take a drop or let it alone.

There are approximately 500 cures for a common cold, about 200 of which are still legal.

Bart Richards' Car Is Found

Ford coupe of Assemblyman Bart E. Richards, missing from in front of the News office since January 6, was recovered late Tuesday afternoon in front of 117 North Mercer street, but a short distance from the point at which it was originally stolen, by Officer Charles Augostine.

Investigation showed that it had been left at that place some time the night before. Owing to the fact that there were no license plates on the machine when found, it was not then known whose machine it was.

It was removed to a local garage where the engine number was taken and on further investigation, it was found to be the missing machine of Assemblyman Richards.

The machine was rather the worse of wear showing that it had been receiving considerable use and abuse since being stolen.

Oil Production Shows Increase

(International News Service)

NEW YORK, Feb. 9.—The daily average gross production of crude oil in the United States for the week ended February 5 increased 32,050 barrels, averaging 2,402,400 barrels daily for the period, according to an estimate issued today by the American Petroleum Institue, the daily output of California and mid continent fields was 646,500 and 1,406,850 barrels, respectively.

Receipts of California crude and refined oil at Atlantic and gulf coast ports during the week totaled, 1,326,000 barrels, a daily average of 189,429 barrels as compared with a daily average of 55,714 barrels in the preceding week. Imports of crude and refined oils at the principal United States ports averaged 166,143 barrels daily against the previous week's daily average or 194,000 barrels.

PETERS ADVENTURES IN ANIMAL LAND

By Florence Smith Vincent

SMART INSTEAD OF STUPID

"Thanks, little girl!" gasped the grateful fish, and weakly moved one fin. "If only my dear wife were here she would thank you and the children too!"

"Well, I never!" exclaimed Peter, and he told the truth, for never in all his life before had he listened to a fish story.

"Perhaps you don't think I have a wife and children!" The cooling water poured over him by the kindly hand of the little girl began to take effect, and the Trout's voice grew stronger. "Well, I have! The loveliest lady in all Trout Stream fell in love with me and is mine. As for the boys and girls they are quite as handsome as their mother, and almost as smart as I."

Still Peter could not find his tongue for sheer amazement, and the little girl was too concerned in keeping the fish cool and comfortable to notice what he was saying. But at this remark of Trout's Pat chuckled, then tried to make believe he had only sneezed, but 'twas no use, the Trout had heard him.

"PERHAPS YOU DON'T THINK I HAVE A WIFE AND CHILDREN"

"What are you laughing at, Dog?" demanded he. "Me?" And if you've never heard a fish speak you've no idea how squeaky and queer his voice is—nothing more than a whispering gasp.

"I was just thinking how a fellow so smart as you ever managed to be stupid enough to get on the hook!" barked Pat.

The Trout lost his temper. His gills reddened with anger, open and shut went his mouth like a broken hinged door in the wind, and he reared himself up till he stood on the end of his tail to glare with his blinky eyes at the Dog. It half looked as though he intened to bite Pat, but Pat jumped out of the way, and back flooped the fish to the ground, very much out of breath.

"You may think you're funny, Dog, but you're not!" gurgled he. "It's not fair to call me stupid just because the sun blinded my eyes and I snapped at a grasshopper I thought I saw struggling in the stream, finding out, too late, I had bitten on a hook. Too smart, that's what I was instead of stupid I'd like to see you in my place keep out of trouble any better than I do. Everybody makes mistakes, but you shall see. From here on to the rest of my days I shall look before I nibble."

Report Negro Turning White

YORK, Pa., Feb. 9. — Samuel King, a negro native of Maryland recently a resident of Hanover, Pa., and now an inmate of the York county almshouse, is said, by the steward, Oscar Altland, to be turning white. King's face, head, ears, and neck are as white as those of a Caucasion with pink cheeks to boot. The skin of his body and limbs present various tints from brown to white markings similar to the spots of a leopard.

When asked the probable cause of his change in color, King attributed it to his many years employment as a lime burner. However it is believed the real cause is due to malfunctioning of certain organs supplying pigment to the skin.

King said he first observed the start of his change in color when a youth. Since then the white appearing on his face and neck has been progressive.

This case recalls to the minds of local circus fans, P. T. Barnum's exhibition of the early eighties, when he widely advertised "The Leopard Boy" among his collection of freaks. The lad was a negro who was turning white. Barnum advertised him as a native of South Africa and claimed a tremendous bond had been posted with the English government for his safekeeping. The Leopard Boy's death certificate showed him to have been born in Texas.

P. V. Ryhal Will Receive Pension

By GEORGE H. MANNING
(Washington Correspondent of the News).

WASHINGTON, D. C., Feb. 9.—Presley V. Ryhal, Spanish War Veteran of New Castle, will receive a pension of $20 a month hereafter and back pay from June 9, 1926, the Pension Bureau today informed Representative Thomas W. Phillips, Jr., of Butler.

Mr. Ryhal served in Company K, 4 and United States Volunteer Infantry, during the war with Spain.

NEW CASTLE HIGH DEFEATS TECH FRESHMEN 23-19

College Quint Is Outclassed

New Castle High's Fast Attack Bewilders Tech Collegians Here

RICHARDS-McGRATH PLAY FINE GAME

By "BUGS" WALTHER.

Unable to cope with the fast attack offered by the New Castle High team in the first two quarters of the game, the Carnegie Tech Freshmen quintet was forced to bow to the locals here Tuesday night, by a count of 23 to 19. It was the eighth straight victory for the Red and Black team and the tenth of the season.

New Castle High played a sensational game on the first and second quarters, but their defense went to pieces in the final chapters and despite the fact that they had gained such a fine lead in the opening rounds were forced to keep going to gain a four point victory.

The one outstanding feature of the game was the belated rally by the Tech Plebes that threatened for a time to prove disastrous to the locals. Had the visitors played the same kind of a game in the first half that they did in the later sessions, they would have returned to Pittsburgh with the scalp of the Red and Black dangling at their waists.

Almost direct from the tip-off at the start of the game Bond, the lanky Tech center, raced down the floor and dropped one through the hoops. Reider soon evened things up for New Castle, and Ostrosky sent the Red and Black team into the lead with a fine shot from midfloor, from this time on it was all New Castle. The first quarter of play found the locals leading by a score of 10 to 2.

Richards Stars.

"Tippy" Richards utilized as a forward for the first time by Coach Bridenbaugh proved himself a finished artist, and his grand total for the affair was three field goals, he is credited with one more than any player in the game. The forward job was rather new to the South Side youth but he handled the assignment in a manner that stamps him as a fixture in future games. At the start of the second quarter Richards dropped one through the hoops that sent the locals into a 12 to 2 lead.

New Castle High kept hammering away at the hoops all through the second quarter and found the Tech defense easy to penetrate. The visitors had a hard time to get past the local defense and for that reason their shots at the baskets were few and far between.

The end of the first half found the New Castle team in the lead by a score of 18 to 7. Richards, McGrath and Ostrosky with two field goals apiece were the big stars for the locals, while Bond and Brown tallied for Tech. Captain Andy Hartman, one of the most finished players seen here in years was a tower of strength to the Tech team, but lacked co-operation. Hartman attempted to instill fight into the visitors but they failed to respond and for that reason they took a neat lacing for the first two quarters.

Tech Hits Stride.

New Castle High faced a vastly different Tech team at the start of the third quarter. The Plaid warriors had fight and determination written on their faces as they returned to the court and they proceeded to regain what little ground had been lost.

Reider and Richards were the only Red and Black players able to score in the third quarter, while Hartman and Connelly both former local boys secured markers for Tech. The score at the end of the third quarter was 23 to 12 in favor of the New Castle tossers.

The Tech defense tightened in the fourth quarter and the New Castle boys were held scoreless for the entire period. Hartman, Pounders and Connelly gathered in points for the visitors and toward the close of the final session the Tech youngsters were going at "full steam" and the dark clouds began to hover overhead, but their spurt came too late and although they clearly outplayed New Castle in the third and fourth quarters they were forced to accept a four point defeat.

Richards, McGrath and Ostrosky were the big point getters for the locals, while Sillman and Reider played a bang-up game on the defensive. Hartman, Connelly and Bond were the best bets for the Techites.

The lineup and summary:

New Castle—23		Carnegie Tech—19
Reider	F	Hartman
Richards	F	Brown
McGrath	C	Bond
Ostrosky	G	Pounders
Sillman	G	Griffith

Subs: New Castle, Johnson for Richards. Tech, Neilson, Connelly, Gemmill.

Field goals: Reider 2, Richards 3, McGrath 2, Ostrosky 2, Sillman, Hartman 2, Brown, Bond 2, Pounders, Conelly 2.

Fouls: New Castle 3 out of 4. Tech 3 out of 5.

Referee: Smith, New Brighton.

Gerson Imperials To Play Youngstown Team On Thursday

The Gerson Imperials will clash with the fast Orange Crush Five of Youngstown on Thursday night at the Y. M. C. A. court. The game should be one of the best of the junior schedule in this city.

The Orange Crush Five are at present leading the Junior League at Youngstown and they are reported as having a mighty fast team. The team will be accompanied by a large crowd from the Ohio city.

Gus Slovonsky of the Mahoning Valley Association has been secured to handle the game in the capacity of referee. If the locals can defeat the strong Ohio City team it will greatly increase their stock.

The following men are asked to report for the game; Davids, Zieve, Rogovin, Plant, S. Levine, Friedman, Solomon and P. Levine.

He Worries Foes and Scribes

Central Press Photo

Harry Hnizder, forward of the Ohio Wesleyan basketball team, is known as a dangerous member of the team to foes of the court. Sports writers find him equally as dangerous as a typographical problem. Harry estimates his name is spelled right but 10 percent of the time. And the pronunciations of it range from Sneezer to Noser. He pronounces it by leaving the "H" silent and sounding the "i" short.

SPORTS DONE BROWN

The coming summer in Philadelphia bids fair to be much more interesting to most of the folk there than the last one—without the disastrous financial results of the Sesquicentennial.

For instance, there's the baseball situation.

* * *

Not only are Eddie Collins and Stuffy McInnis, two famous members of the old White Elephants, getting ready to cavort in the town ball yards again, but the fans will witness the debuts of two of the most talked of young infielders of the year. These are Joe Boley, new shortstop of the Athletics, and Lafayette Thompson new second sacker of the Phillies.

* * *

Boley is the veteran member of the Baltimore Orioles finally won away from Jack Dunn, owner of the Oriole team. Connie Mack paid $40,000 in real money for him. Dunn could have received $100,000 for Mr. Boley a couple of years ago, but kept him in the cooler so long that he ceased to be fresh meat. He is now a thoroughly experienced campaigner, however, and should strengthen the Macklan infield.

THOMPSON ONCE WORE CUTLASS

Thompson is the young man who was given a tryout by the Pirates a year or so ago. He was with the Buffalo club last season and joined the Phillies via the Giants this winter in the four cornered deal which made Burleigh Grimes of the Dodgers a Giant and Butch Henline of the Phils a Trolley Dodger.

He is called the greatest young infielder to be held momentarily, at least, by a New York club since Frankie Frisch flashed across the big league horizon some years ago with the dust of the Fordham campus still on his feet.

Which is a pretty compliment, if true. Frisch was good enough to step right into the Giant infield and play pennant baseball along with a great crew of infielders. Thompson played 159 games at second in the International League last year, hit .330 and fielded .966.

* * *

Connie Mack is counting on Boley to play short in Chic Galloway's place from the first bell on. That's how high he rates the Baltimore veteran.

* * *

With these lads cavorting afield, Eddie romping once more at second now and then for the Athletics, and McInnis handling the reins for the lovely but struggling Phils, the Quaker City ought to have a few interesting days, if its nights aren't disturbed.

* * *

Phil Rosenberg And Graham Are Now Suspended

New York State Boxing Board To Conduct Hearing Into Recent Bout

(International News Service)

NEW YORK, Feb. 9.—The New York State Boxing Commission has suspended Charlie Phil Rosenberg, of New York, and Bushy Graham, of Utica, N. Y., and their respective managers, Harry Segal and Bill Parr pending an investigation and a hearing on Friday into their bout last Friday night, in which Rosenberg was four and a half pounds overweight and thereby automatically divested of the bantamweight title.

The commission made clear that the honesty of the battlers was not being questioned but that it wanted to look into the terms of the contract between the two.

Third U. P. Quintet Defeats Amateurs

Third United Presbyterians defeated the Amateurs, 14 to 13, in a good basketball game at the Rose avenue court. At the end of the first half the score was 11 to 6, with the Amateurs leading.

The line-up:

Third U. P. 14		Amateurs 13
Lutz	F	Slosnerick
A. McNickle	F	Mann
McKnight	C	Chernyavsky
R. McNickle	G	Yesenski
Mansfield	G	Campbell

Substitutions: Third U. P., McClymonds; Amateurs, Weir.

Field goals: Third U. P., A. McNickle, 2, McKnight, 1; Amateurs, Campbell, 4; Weir, 1.

Fouls: Third U. P., 8 out of 14; Amateurs, 3 out of 9.

Referee: Hank McKay.

HERE AND THERE IN SPORTS' LAND

By ED. FRITZ

TY COBB will play for the Philadelphia Athletics this season, according to Ty's announcement at Philadelphia last night. He will draw $60,000 for one season, the report declares. Dan Howley of the Browns is said to have offered $50,000, but Connie Mack outbid the St. Louis team manager. Cobb is 41 years old and he told the sport scribes at their annual dinner last night he intends to retire from baseball at the end of the present year. Recently Tris Speaker signed with the Senators.

THE NATIONAL League put itself on record today as being in favor of a three-years' penalty for players who make a "gift" to another club, which is two years better than the penalty which Commissioner Landis suggested. The league approved other recommendations by Landis as follows: a statute of limitations concerning charges would be outlawed after a five years' lapse; ineligibility of one year for a player betting on a game and permanent ineligibility for a player betting on a game in which he is a participant.

DAN HOWLEY of the Browns has traded Pitcher Giard and Outfielder Durst to the New York Yankees for Sam Jones, a hurler, and as part of the deal the Browns will send Gene Robertson, an infielder, to St. Paul. Giard went to the Browns from Toledo in a trade which involved Urban Shocker, Joe Bush and Milton Gaston. He pitched a few good games in 1925, but last year was handicapped by injuries and the left-hander had a poor season.

BUSHY Graham, Phil Rosenberg and their managers have been ordered to appear before the New York state boxing commission, and pending the session Friday they stand suspended. The commission intends to probe their recent fight in Madison Square Garden. The "honesty of the contract" entered into between Harry Segal and Bill Parr, managers, is questioned. Rosenberg won the fight, but he scaled considerably over the bantamweight limit. Chairman Farley today intimated that he considers Graham innocent of the situation, but as he is an interested party he must appear.

WALL Street has its finger in the puddle again today, and according to reports from the narrow street with the tall buildings, where the bears and bulls roam at will, Jack Delaney remains a favorite over Jim Maloney for their bout in New York February 18. Interest in the betting rivals that taking place before Jack Dempsey clashed with Gene Tunney. Delaney is on the long end, with odds of eight to five and six to five. One firm has $20,000 to bet. A wager of $1,000, even money, was made saying that the winner would be Gene Tunney's next opponent.

Allegheny College Tops Westminster

The Allegheny College passers defeated Westminster by a score of 24 to 13, in a fast game played on Tuesday night at Meadville.

It was the second defeat of the year for the Westminsterites, Geneva College having turned the trick earlier in the season.

GROVE CITY TO PLAY PITT ON FRIDAY NIGHT

Coach Thorn To Put Squad Through Intensive Drill For Big Game

GROVE CITY, Pa., Feb. 9. — Intensive preparation for the game Friday night with the University of Pittsburgh is now under-way at Grove City College and Coach Bob Thorn is grooming his spheroid tossers accordingly for the big setto.

The Crimson's annual invasion to Pittsburgh for the Panthers contest is always looked forward to as one of the high spots of the Tri-State's floor calendar and such is the case again this year.

Coach Carlson's proteges with victories over W. & J. and Carnegie Tech have hit their stride, and with Captain Lissfelt and Sykes Reed back in the lineup, the Pitt Panther will be at full strength to battle the Grovers.

Grove City by its rather mediocre showing on the hardwoods this season and due to the ineligibility of Homer Rose and Bobby Angelo entertains little hopes for victory Friday night. Rose is lost to the team for the remainder of the season while Angelo is out for two weeks or until he can remove a condition. Angelo was enjoying a great year in basketball, he being one of the leading point scorers of the Tri-State district until his ineligibility this week.

As the result of the loss of these men Thorn has found it necessary to recruit players from the class league to fill up the vacancies on his floor squad. Special attention is being given the boys in all departments of play and though unable to appear at full strength against the Panthers the Grovers will no doubt wage a hard battle Friday night and before the game is over Carlson's lads will know they had been in a real contest.

Union High Team To Play Wilmington Saturday Night

NEW WILMINGTON, Pa., Feb. 9.—Two contests confront the New Wilmington High basketball quintet this week. Thursday evening the Blue and Gold will go to Farrell to meet the passers of that place and Saturday evening the Union High team of New Castle, will visit New Wilmington.

In meeting Farrell Thursday evening, the locals will be called on to face one of Mercer County's fastest teams. The Steelers were recently hard hit by the loss of their star forward, but they are rapidly regaining their early stride.

The contest here Saturday evening, should be worthwhile. The Union team has been stepping high, they having defeated Mt. Jackson High by a one-sided score recently on a neutral floor.

Coach Wiggins had his men on the floor Monday, drilling for the week's play. Wiggins was pleased by the results of the trip to West Virginia which netted an even break, Bethany High having been defeated but Follansbee winning out.

Miss Vera Menohik, a sixteen-year-old girl, has been astonishing the chess experts in London with her wonderful mastery of the game.

Mars High To Play Locals Here Friday

Mars Girls And Boys To Battle New Castle High On Friday Night

New Castle High will entertain Mars High here Friday night at the Senior High school court. The New Castle girls and the Mars maidens will play the preliminary game, starting at 7:15 o'clock.

The locals have won six straight victories in Section IV of the W. P. I. A. L. to date, and they need but two more victories to cinch the championship of the loop. From the recent game played at Mars, which went to New Castle by a score of 29 to 18, it would seem that the locals were just a little superior to the Butler county outfit.

With a fast combination in shape for play, the Red and Black team looks the part of real champions. The team presented by Coach Bridenbaugh last night against Tech was without doubt one of the best outfits of the year, and it is safe in saying that it was the best fighting team that New Castle has had for many years. Every man on the squad is a fighter, not in fistic combat alone, but on the basketball end of the business.

If the locals can continue the stride that carried them to victory over the Tech Plebes they will capture the sectional title with ease and will also go quite a ways in the elimination games, this being the candid opinion of the writer.

Mars High will come here Friday night bent on revenge for the recent setback, and a good game is expected.

Pitt Football Team Hard Hit By Examinations

(International News Service)

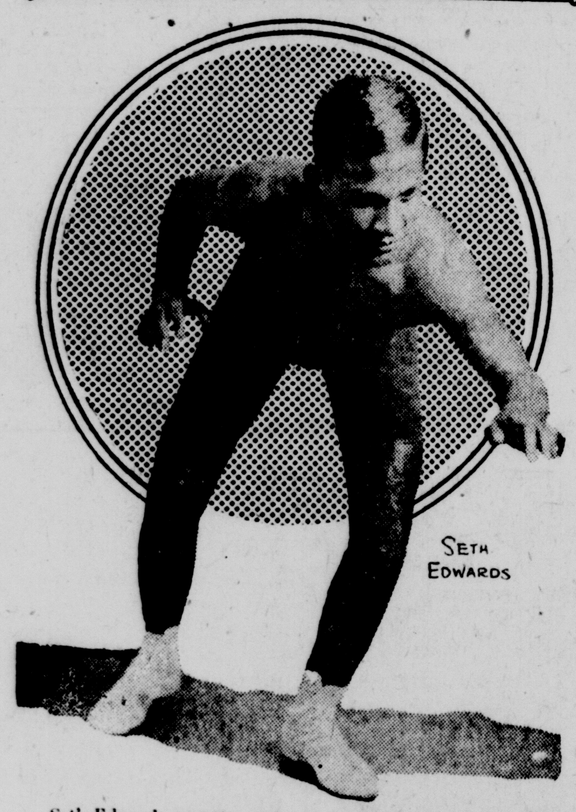

PITTSBURGH, Pa., Feb. 9. — Several prominent members of the University of Pittsburgh varsity football squad were on probation today and faced possible dismissal because of low grades in the recent semester examinations, it was announced here today. Among those admitted for the second semester on probation were Al DeMolio, guard, Jimmy Rooney, quarter and halfback, and several substitutes on the 1926 squad.

Sacred Hearts Challenge Polish Falcons To Game

The Sacred Hearts would like to play the Polish Falcons on Thursday night and ask that the Falcon manager call 4123-R at 6 o'clock tonight and ask for Jimmie.

The Sacred Hearts were recently defeated by the Falcons and they seek revenge for the setback. The Hearts would also like to schedule games with all fast junior teams in the city and county. Either call the number stated above or write to 512 South Jefferson street.

Ty Cobb Will Sign Contract With Athletics

Report Former Detroit Star To Receive Salary Of Close To $75,000

By E. L. RAWLEY,
International News Service Staff Correspondent

PHILADELPHIA, Feb. 9.—Ty Cobb, Baseball's famed "Georgia Peach," will formally sign with the Philadelphia Athletics today. Uncertainty of the Georgian's plans for the coming season were cleared up when Cobb announced his decision at the Philadelphia Sporting Writer's banquet here last night.

Cobb in a brief speech declared, "I consider myself very fortunate that I am going to be associated with the Athletics during the coming season."

Touched by the great ovation given him by the 500 diners the Georgian added:

"I wish that it was a few years back, when I was younger. Then I could do the things I want to do for you."

Cobb probably will receive the highest salary ever paid a baseball player for this season's work. The exact amount he will receive is not made public, but unofficially it is reported to be between $60,000 and $75,000.

After the signing of his contract today, Cobb will leave for his home at Augusta, Ga., he said. Then he will engage in a brief hunting trip before joining the Athletics on their spring training trip.

Musketeers Trim Enon Valley 46-28

The Musketeers of the Boy's league at the Y. M. C. A. defeated Enon Valley 46 to 28, in a recent game played on the Enon Valley court.

The Musketeers were superior to the Valley quintet in all departments of the game, and scored almost at will through the defense offered by Enon.

Hannon with nine field goals and Andrews with eight markers were the feature players of the game.

The lineup and summary:

Musketeers.		Enon Valley.
Hannon	F	Daniels
Louden	F	Bendfield
Kroen	C	Andrews
Woods	G	Dewalt
Hill	G	Marshall

Sub—Zeh for Marshall.

Field goals—Hannon 9, Louden 5, Kroen 5, Woods 2, Hill, Daniels 4, Bendfield 5, Andrews 7, Zeh 2.

Fouls—Musketeers 2 out of 6. Enon Valley 0 out of 8.

Indies Midgets Seek Games With Fast Quintets

The Indies Midgets a newly formed quintet would like to book games with all first class midget teams in the city or county. The following teams are asked to get in touch with the manager of the Indies Midgets; East Side Orioles, Mahoningtown Midgets, Falcon Midgets, Electric Grade team of Ben Franklin school.

The team is composed of :"Bill" Ross, captain; "Tex" Richards, manager; Gennock business manager; Zeigler, DeStephano, Tuscanno, and coached by Benny Marino of the Peerless Five. For games call Gennock at 752-J.

Duquesne Game Postponed Until Monday Evening

NEW WILMINGTON, Pa., Feb. 9.— Westminster College's basketball game with Duquesne University of Pittsburgh, scheduled to be played in the Steel City, Friday evening, has been postponed until next Monday evening, according to announcement by Graduate Manager A. A. McDonald.

The change in dates came at the request of Duquesne. It is thought that it will work advantageously for Westminster. Thursday evening Westminster plays Waynesburg, at Waynesburg. The night following the Duquesne game, the Blue and White will go to Bethany.

Trojans Win From Ramblers

In a fast game of basketball, played last night, the Trojans defeated the Ramblers to the tune of 24-20.

McCay, Bluedorn and Bogdon were high scorers for the winners with five baskets, while three markers made Neyman high man for the defeated five.

The Trojans will play the Liberty Five tonight on the Rose avenue floor.

The lineup:

Trojans 24.		Ramblers 20.
Bluedorn	F	Johns
McCay	F	Neyman
Kaufman	C	Lewis
Bees	G	Blight
Geddis	G	Thomas

Subs.—Bogdon, Craig.

Back Again, Carrigan — By Feg Murray

More scandel! The man who made the notorious "Dutch" Leonard a success is now back in baseball! For Bill Carrigan, who has succeeded Lee Fohl as manager of the Boston Red Sox, was so good a catcher with the same team back in 1913, '14, '15, and '16, that he actually developed the pitching ability of the now unpopular "squealer" until "Dutch" became one of the best southpaws in the business. Bill also "discovered" the famous Babe Ruth, and I can say, without fear of contradiction, that if he is able to develop one of the seven R's on his club roster for 1927 into half as good an all-around player as the Bambino, he will be more than satisfied.

Anyway, it's quite interesting, this return of the former catch-manager to the team he left ten years ago when it held the championship of the world. Now he finds it the door-mat of the American league and smarting under the fact that out of the last five years it has finished in eighth place four times and seventh the other time! Wotta job you've picked for yourself, Mr. Carrigan!

But Bill Carrigan can bring back a winning team to Boston if anyone can, unless his long absence from baseball has dulled his keen perception of the game. Bill used to have a boundless knowledge of opposing batsmen, as well as a way of arousing great enthusiasm and fight among his players. In the last ten years he has seen only thirty major league games, so he will find the task of matching wits with men like Connie Mack, Miller Huggins, and Stanley Harris quite an undertaking at first.

At Holy Cross in 1905, Carrigan was known as the greatest of college backstops. Then followed a long and illustrious career with the Red Sox, then ten years' vacation from baseball—and now a two-year contract for $50,000 to return to the Hub once more. If you ask me, it's no bargain.

Feg Murray Says—

Certainly, all ice hockey players train on hard water.

Babe Ruth Starts Salting Away For Some Future Day

(International News Service)

NEW YORK, Feb. 9:—The sum of $33,000 was said to be on deposit today at the Bank of Manhattan to the credit of Babe Ruth as the first step in the establishment of a trust fund for himself. Ruth, it was said, made the deposit in celebration of his thirty-third birthday in Los Angeles two days ago. The Babe hopes to increase the fund to $50,000 by June 1 and to $100,000 at the end of the impending season.

The original deposit was said to represent part of his off-season earnings in vaudeville and moving pictures.

Ten Districts Are Arranged

(International News Service)

HARRISBURG, Pa., Feb. 9. — The state today is divided into ten districts with referees assigned to each for the hearing of Workmen's Compensation cases. All of the old offices are retained and a new one with John R. Keefer, Greensburg, as referee is established. The districting by counties was made public here last night after the initial meeting of the new board.

Rebel Forces In Mexico Suffer Severe Setback

(International News Service)

MEXICO CITY, Feb. 9. — Two successive engagements between Federals and Rebels at Mount Comalada, within a hundred miles of Mexico City, were won by the Federals, the Government announced today. The Rebels lost fifteen men, twelve prisoners were taken and eleven Rebels surrendered. The government charges that religious propaganda was taken from the prisoners.

Another Rebel defeat is reported at Mount Anzimo in Guanajuato. Two Rebels were killed and four injured in this engagement.

Missionaries Safe In Central China

GROVE CITY, Pa., Feb. 9.—James Howe of Grove City reports that he has heard from the Kidder family, who are at present located in the interior of China. At last report all was well with them. It appears that they are out of the trouble zone as yet, but they are in China, and that is rather an uncertain location these days. Mrs. Kidder was Miss Florence Howe and is well known in this vicinity. Mr. Kidder is a missionary to the China Inland Mission and is located at Chenjo, which is up country from Shanghai. Dr. Lewis, also of Grove City, is located at the same station. Mr. Howe states that it takes as long to reach Chenjo from Shanghai as it does to go from Grove City to Shanghai. This gives some idea of the extent of China. The Kidder family consists of three small boys.

Buick owners enjoy the savings of leadership

In purchase price and daily use, Buick owners profit by the savings of leadership.

The price of a Buick is moderate, but it buys a car built to the very finest quality ideals—one that would cost you considerably more, if it were not for Buick volume.

For years, the savings provided by great volume have been devoted to the enrichment of Buick value.

And for years, Buick owners have had a more dependable motor car—one in which high quality lessens upkeep expense.

Buy a Buick! It is an investment in economy and satisfaction.

Izaak Walton League Banquet February 19

GROVE CITY, Pa., Feb. 9.—The first annual banquet of the Grove City chapter of the Izaak Walton League of America will be held in the state armory on Thursday evening, Feb. 19, at 6:30. The dinner will be served by the ladies of the Lutheran church.

The local organization was only recently effected, the chapter being granted early in December of last year. A membership drive just completed has placed the membership of the chapter very near the hundred mark and new members are being added daily.

The program for the evening is in charge of the entertainment committee of the club and R. W. Walters, the chairman, will announce the outline for the evening in the next few days. Tickets are in charge of the committee: Dorance Fox, Harry Davis, Bailey Barnes, D. G. Baker, A. C. White, J. Ramsey and A. W. Madge.

The annual boat race betwee Cambridge and Oxford universitie an aquatic fixture of world-wi interest with close upon a centu of guarded tradition behind it, w be rowed this year on April over the usual course on t Thames river between Putney a Mortlake, which has been the sce of all the races for the past eight two years.

Sure Way to Get Rid of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. Then you destroy it entirely.

To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store and four ounces is all you will need. This simple remedy has never been known to fail.

THANKS!

· AND A PROMISE ·

Every industry is ultimately made or unmade by public opinion.

Witness the raising of Chrysler by public approval in three years time from 27th place to 4th place among exhibitors in the National Automobile Shows.

Twenty-three long-established motor cars supplanted because the public found greater value in Chrysler.

By the spontaneous action of public opinion Chrysler engineering and manufacturing principles were crowded up into fourth place.

In business at least democracy *works,*—and all things are possible to the independent manufacturer functioning at the head of his own independent company, unhampered by old traditions or obsolete equipment, and giving brains, experience and new ideas full swing in development and achievement.

The amazing advance of Chrysler in public esteem has rocked the automobile industry from top to bottom.

At first the attempted competitive explanation of Chrysler was that it was a new and probably a one-year car.

Now the wish to give the public cars like Chrysler has become almost a rout and a panic of emulation and imitation.

Mr. Chrysler and his organization appreciate the leadership awarded to them and realize its responsibilities. They will keep faith with the public which has shown faith in them. (788)

HIGH LIGHTS OF HISTORY

Lee Takes Command.

by J. CARROLL MANSFIELD

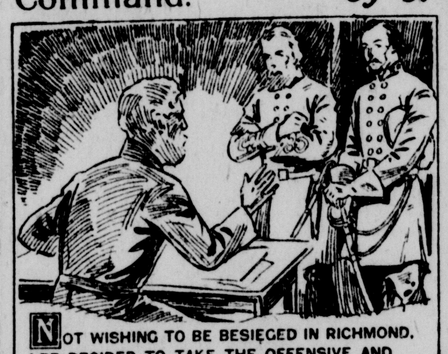

Registered U. S. Patent Office.

AFTER JOSEPH EGGLESTON JOHNSTON WAS WOUNDED AT THE BATTLE OF SEVEN PINES, THE COMMAND OF THE ARMY OF NORTHERN VIRGINIA WAS GIVEN TO GENERAL ROBERT EDWARD LEE. LEE, THE SON OF "LIGHT-HORSE HARRY" LEE OF REVOLUTIONARY FAME, WAS A WEST POINTER, A VETERAN OF THE MEXICAN WAR AND THE EQUAL OF ANY AMERICAN OFFICER.

LEE ORDERED A LINE OF EARTHWORKS TO BE THROWN UP ACROSS THE ROADS LEADING TO RICHMOND FROM THE UNION LINES, BUT McCLELLAN SHOWED NO INCLINATION TO ASSAULT THE CONFEDERATE POSITIONS. TWO WEEKS OF RAIN HAD MADE THE ROADS IMPASSABLE FOR ARTILLERY AND THE FEDERAL LEADER HAD MADE UP HIS MIND TO ADVANCE SLOWLY ON THE SOUTHERN CAPITAL IN SIEGE FASHION.

NOT WISHING TO BE BESIEGED IN RICHMOND, LEE DECIDED TO TAKE THE OFFENSIVE AND PLANNED A MOVEMENT AROUND THE FEDERAL RIGHT WING AT MECHANICSVILLE TO CUT McCLELLAN'S LINE OF COMMUNICATIONS. THE ATTACK WAS TO BE MADE WITH THE CO-OPERATION OF "STONEWALL" JACKSON, WHO HAD GOTTEN OUT OF THE SHENANDOAH VALLEY, ELUDED McDOWELL'S ARMY, AND WAS HASTENING EASTWARD.

ON JUNE 26, LEE HURLED THE DIVISIONS OF GENERALS LONGSTREET, A. P. HILL AND D. H. HILL UPON MECHANICSVILLE, WHICH WAS HELD BY GEN. PORTER WITH 25,000 MEN. JACKSON'S ARMY DID NOT REACH ITS POSITION IN TIME AND THE CONFEDERATE ONSLAUGHT WAS REPULSED.

N. Y. STOCKS

(International News Service)

NEW YORK, Feb. 9.—Feverish speculation in the merger railroad stocks was resumed in early trading in the stock market today. Aggressive buying of the wide range of speculative rails which have been making stock market history since the turn of the year resulted in a further advance in prices of the Western Maryland, Chicago Great Western, and other stocks of companies which were supposed to harbor competitive bidding by the powerful railroad magnates.

Wheeling and Lake Erie was extremely quiet in the first half hour, but the preferred jumped about 7 points on Washington reports that application had been made to the I. C. C. to issue 222,276 new common stock to be exchanged for the two issues of preferred stock, par for par. Approval of the application would relieve the tension in the market position of Wheeling.

Baldwin Locomotive jumped about 4 points to 166 on reports that earnings last year would approximate $21 a share. Hudson Motor reached a new high at 66 on buying attributed largely to shorts and to the Fords in Detroit. Oils and coppers were steady, but elsewhere the market was featureless. U. S. Steel sold up a point at 158¼. Call money 4 per cent.

House Has Bill For Second Judge In Lawrence County

(From News Bureau)
(State Capital)

HARRISBURG, Pa., Feb. 9.—From the viewpoint of a Lawrence county citizen the State Senate chamber was an interesting place on Tuesday at noon. Senate Bill No. 154, presented by Senator George T. Weingartner was up for third reading and if passed, meant the first step towards getting an additional judge for Lawrence county.

As Lieutenant Governor Arthur H. James announced the bill, senators sitting within hailing distance of Senator Weingartner assured him that his bill would go through without any difficulty and it did. Only 48 senators were in their seats out of the 50 in that body and every one of the 48 voted affirmatively. It was quite a compliment to Senator Weingartner, for so quickly had the bill been prepared and submitted that there was little time for any of the members to go into it along with the grist of other bills. They accepted Senator Weingartner's word that the bill was a needed one and voted accordingly.

Over in the House of Representatives Bart Richards and Milton A. Bicket have been busy interesting other members in the passage of the bill and the indications are for an early consideration there. If the House can be induced to act upon it as unanimously as did the Senate it will probably be a factor in getting the governor to sign the bill shortly after its passage.

Many Applicants For School Places

Many applications for positions in the New Castle schools are being received from the present corps of teachers. Most of the present force will be in their positions next year, so from all indications the number of vacancies will be very few.

Yet many applications have been received from new applicants, so that although very few vacancies are expected, there will be many applicants for each position.

Symphony Orchestra For New Castle May Be Development Soon

Possibility of a city Symphony orchestra for New Castle has been frequently discussed during the past few years. At least two of the men's civic clubs have considered it seriously and many citizens have expressed serious interest in the establishment of such an organization here.

With the appearance here of the noted Minneapolis orchestra in the Scottish Rite auditorium tomorrow, this discussion will be revived.

The great symphony orchestras of the country have not grown into being thru a breath of inspiration but have been established by cooperation, effort and much sacrifice. They have cost tremendous sums of money, however, but every city that has such an organization is jealous of the prestige it affords its home community.

A little of the history of some of our greatest orchestras would be of interest at this time. The New York Philharmonic orchestra, which is active today was founded in 1842 and it is a remarkable fact that at its premiere performance, it performed the "Oberon" overture by Weber, which is being used to open the program at the musical premiere in the Scottish Rite auditorium tomorrow night, by the Minneapolis orchestra. Clarence Mackay, president of the Postal Telegraph company has been the main backer and manager of the Philharmonic orchestra for some years back. Mackay hasn't withdrawn his support of symphonic music, since he became the father-in-law of Irving Berlin, famous writer of popular songs.

The Boston Symphony orchestra was established in 1881 by Col. Henry L. Higginson, a veteran of the Civil war who became a wealthy banker. Under Col. Higginson's influence, the Boston orchestra came to be recognized as the very best in the country, a prestige that was somewhat impaired to its founder's death a few years ago.

The New York Symphony society was founded in 1878 by Dr. Leopold Damrosch, whose son, Walter was elected to the directorship when Leopold died in 1885. Dr. Walter Damrosch, who has attained fame in the radio world, thru his lectures and concerts with the New York Symphony orchestra, is retiring from the active directorship at the close of the current season. Mr. Harry Harkness Flagler enabled this great historic organization to pursue its highest artistic aims when in 1914 he set aside $100,000 annually to defray any deficits in its receipts.

Under the beloved Theodore Thomas, the Chicago Symphony orchestra was brought into existence when fifty business men of that city pledged $1,000 yearly for three years to establish it.

The Philadelphia orchestra was founded in 1900 and is today backed by more money than any other orchestra in the country.

The Minneapolis orchestra came into being in 1902 and is backed by a guarantee fund of $150,000 a year pledged by eight hundred citizens of Minneapolis. While somewhat younger than its sister organizations, under the leadership of Henri Verbrugghen who has had charge for three years, it is becoming more and more in demand and during the present season has enjoyed the biggest tour of any of the orchestras of the entire country, covering the extreme southern states and the states along the Atlantic coast. With the fine auditorium at the disposal of the city, weekly concerts, such as we are to have tomorrow in the Scottish Rite auditorium, are more to be desired than having such occasions once a year or less. However, until we have our own orchestra, we shall have to be content with these infrequent though wonderful musical treats.

Father Discovers Boy Is Wayward

Takes Him To Police Station And Then Gets Real Surprise

There is one more father in this city, that as a result of his experience of yesterday, is still trying to recover from his surprise on learning something about his boy.

Tuesday afternoon, this father, who resides in Center Way, found his boy, who had been staying away from home all night and refusing to be under parental control, found him loafing in a downtown poolroom and decided to call upon the assistance of the police.

He took his soon, Frederick Newton, aged 17, in charge and made for the police station. There he met Sergeant F. M. Jones and told his trouble, namely the incorrigibility of his son and his desire to have him turned over to Beaver county authorities, where he was on parole for stealing automobiles.

Officer Pete Hillers was present and thought there was something familiar about the name. When stealing cars was mentioned, it reminded him of a boy that he was looking for by that name and he placed the young man under arrest.

A short time later the young man confessed to the recent theft of four machines from the Shenango Tin Plant, where he had been employed at one time. The theft of an overcoat and some meal tickets were also cleared up.

This morning, the young man was taken before Alderman O. H. P. Green, where he was charged with the larceny of an automobile by Chief of Police Henry Dysart and placed in the county jail to await disposition of his case.

One of the four cars taken had been returned Newton confessed the police state. The other cars which he confessed to have stolen were those of Samuel Weatherby taken about January 29; Andrew Ratvasky taken February 1, and Sam Alley taken February 3. All the cars have been recovered.

The boy had not been working lately, according to the father and persisted in remaining away from home at nights.

Larger Number Of School Bulletins Will Be Issued

Issue of the School Bulletin published by the New Castle Board of Education has been increased so that copies may be available for distribution to all the service clubs of the city.

The School Bulletin has formerly been issued only in sufficient numbers to furnish copies for the teachers and school authorities, but this new policy has been adopted so that a greater number of citizens of the city may know of the policies and operation of the school work.

The Bulletin is printed quarterly and contains valuable information concerning the organization and operation of all the schools of the city.

TROOP 5

The Croton Troop 5, will meet Thursday evening with Scoutmaster Davis in charge. All scouts are urged to be present. Troop committeemen are also invited.

NEW AMERICAN LEGION TROOP

The American Legion troop held a meeting Monday night, February 7. Two committeemen were present and the meeting was presided over by the scoutmaster Bernard Hook.

Nearly all members of this troop have now passed their tenderfoot tests. The evening was given over to games after the usual business had been attended to. Even though a young troop, they have already secured "Old Glory" and will soon have the troop flag. The officers of the troop, as colorbearers, are Clyde McCready and Richard Francis.

Friday, February 4, this troop gave a scout demonstration at the Legion Home. Refreshments were served to the boys. The members of the Legion were impressed by the interesting exhibition given by the boys.

TROOP 15

Troop 15 of the First Christian church is having a Valentine Party Thursday evening, at 7 o'clock. This is one of the biggest and best affairs of the troop for the year.

Railroad Stocks Crash Heavily

Wheeling And Lake Erie Stock Takes Big Drop During Day

(International News Service)

NEW YORK, Feb. 9.—After reaching the highest price levels in the current movement, the speculative railroad stocks crashed heavily as the result of profit-taking and speculative selling shortly after the noon period today.

The way was paved for the drop in Wheeling Lake Erie common by the filing of the directors' application in Washington for the issuance of 222,276 new shares of common stock for the exchange of preferred and prior lien stocks. Shorts who had persistently refused to cover bid the stock down from the opening price of 105 to 66, at which price the common was down 64 points from yesterday's high. The preferred stock sold in good volume around 90 in the first hour, but dropped back to 78 when the plight of the bears was believed to have been considerably improved.

In a frenzy of speculative enthusiasm, Wall Street and outside traders rushed into the market at the opening to buy the stocks of the roads in which the competition for control was keenest.

Stage Manager Does Most Important Work In Orchestra Concert

Should Sam Grodnick, stage manager of the Minneapolis Orchestra ever choose to desert his post which he has held for over a decade, he would look for an orchestra that specializes in Tschaikowsky's 1812 Overture and would volunteer for the job of cannoneer in the closing passages of the gigantic number.

It might be necessary to add that on account of certain bothersome city ordinances, the firing of a cannon in a symphony hall is simply not done in this day and age. So, an improvised cannon is made consisting of a good tough cow hide tightly stretched across a heavy frame and beaten with a baseball bat. Grodnik holds the world's record for breaking bats, having demolished two in a single performance when he allowed his enthusiasm to run away with his judgment.

Grodnick has been stage manager with the orchestra for 14 years. During this time he has never missed a train or left a piece of baggage behind. On the road, he must see to it that the 65 instrument trunks are properly handled. Woe to the baggage smasher who lays violent hands on a trunk while Sam Grodnick is around. The seating arrangements for the orchestra must be exactly right, each music stand in place and adjusted to the proper height for each player. The trombones must be sufficiently far from the second violins that no fiddler be rudely poked in the back. The tympani player must have ample room in which to manipulate his three giant drums. The hard working cellists must have elbow and leg room for their efforts.

And, while the audience madly applauds the closing number, Grodnick anxiously consults his watch and worries over just how long he is going to have to hold up the train that carries the orchestra to the next engagement. All this while he acts as stage doorman and sees to it that only those entitled to do so are allowed back stage.

Very few people will see Sam Grodnick when the orchestra comes here on next Thursday, February 10, at the Scottish Rite auditorium.

Carnegie Coal Company Mines May Be Reopened

(International News Service)

PITTSBURGH, Feb. 9.—Indication that the Carnegie Coal company one of the John A. Bell interests which failed in the financial crash which preceded the Carnegie banker's conviction of embezzlement would re-open soon was seen today in the announcement that $550,000 in Carnegie coal bonds, now held by the Allegheny county commission were to be repurchased shortly.

The coal bonds are being held by the delinquent tax collector's office at the request of Frank W. Jackson representative of the state banking commission they were not put on the market, awaiting a settlement of the company's affairs.

Jackson notified the county commissioners yesterday that he would require a little more time before taking up the bonds, but indicated such action was forthcoming soon.

Painters Have Smoker And Social Evening

Local No. 24, of the Painters held a smoker and social evening recently in its room in the Trades and Labor Assembly Hall with thirty-five members and special guests in attendance.

T. L. Morgan, new business agent of the Building Trades Council, was a special guest, and addressed the gathering, stating that the various building trade organizations of the city would support the painters in the contemplated move for changes in the present wage scale. He stated that he expected to have a hundred per cent building trades organization in the next few weeks.

He also announced that conditions in the building trades were good and prospects for plenty of work for the coming year were indicated in this city.

SHOOTS SIX TO DEATH.

(International News Service)

WARSAW, Feb. 9.—Leaving a letter delcaring "death is better than starvation," Stefan Maslany, an unemployed stonemason, today shot and killed his wife, his mother-in-law, two brothers and a sister, while they slept. He then committed suicide.

Fine for Children!

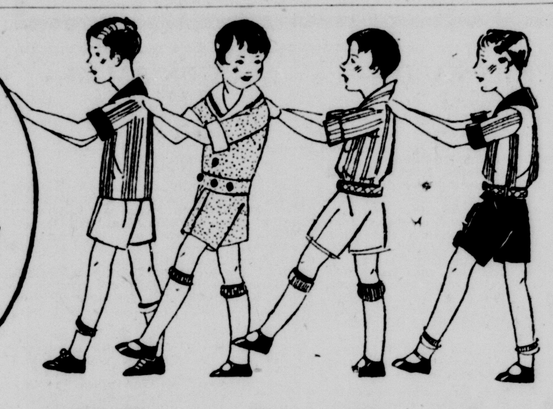

Give them a good start in life, with happy smiles and healthy little bodies. Children need a mild corrective occasionally to regulate stomach and bowels. Dr. Edwards' Olive Tablets are a safe vegetable compound mixed with olive oil. They tone up and regulate the eliminative tract. Not a nasty cathartic or a habit-forming medicine, but a safe pleasant remedy for constipation, sour stomach, torpid liver, bad breath, and similar disorders. Dr. Edwards, a widely known family physician of Ohio, prescribed these tablets for many years in his own practice. Children from six years up are greatly helped by them and like to take them. Recognized by their olive color, Dr. Edwards' Olive Tablets overcome those irritable spells that many children are subject to, keep their bodies in active healthy condition, skin clear and eyes bright with the light of perfect health. 15c, 30c and 60c sizes.

HOUSEHOLD HINTS
BY MRS. MARY MORTON

MENU HINT

You have doubtless added bran to the breakfast cereal, the biscuits and bread, and countless other things, but have you tried it on the waffles? If not the recipe below will give you a chance to try it.

Cereal with Raisins Milk
Toasted Whole Wheat Bread and Butter
Stewed Apricots
Waffles Maple Syrup
Coffee

TODAY'S RECIPES

Bran Waffles—Three cups pancake flour, one cup bran, two tablespoons melted butter, two eggs, three and one-half cups milk. Mix pancake flour and bran together. Slowly stir in the milk, add well beaten eggs and milk. Beat well and bake on well-greased waffle iron.

SUGGESTIONS

Different Ceiling

Never paper the ceiling of a room with the same pattern paper that is used for the side walls. It gives a contracted appearance to the room and appears to lower the ceiling.

Relieves Cough

A mixture of equal parts of glycerine and strained honey with a few drops of lemon juice added will often relieve incessant coughing at night.

Important Trifles

Salads should always be served crisp and cold.

A thin flat tray of tin or aluminum is excellent for baking cookies.

Hang the pictures low in the children's room and let them enjoy them.

Cotton crepe table napkins are a convenience in the summer cottage, as they require no ironing.

Wash It

When dyeing an old dress be sure to wash it well in suds and lukewarm water and thoroughly rinse before putting it into the dye bath. It will never dye successfully if soiled.

Cedar Chests

Remember cedar chests will not kill moths or their eggs. But if the garment is put in the chest free from eggs and larvae it will never become damaged from moths. Be certain it is clean before packing away.

Gargle Aspirn To Relieve Tonsilitis

Also Assures Prompt, Harmless Relief in Sore Throat

The most effective gargle is to dissolve two "Bayer Tablets of Aspirin" in four tablespoonfuls of water, and gargle throat thoroughly. Repeat in two hours if necessary.

Be sure you use only the genuine Bayer Aspirin, marked with the Bayer Cross, which can be had in tin boxes of twelve tablets for few cents.

Quota Club Members Are Enthused Over Fisher Appointment

New Castle Quota Club members are greatly interested in the announcement made of the appointment of S. M. R. O'Hara, as a deputy attorney general by Governor Fisher. She is a member of the Republican State Committee, of the Luzerne County Bar Association, and is past president of the Wilkes-Barre Quota Club.

Expert To Address Dairymen Thursday

GROVE CITY, Pa., Feb. 9.—The Mercer County Agricultural Extension Association has secured S. J. Brownell, dairy extension specialist of the Pennsylvania State College, to talk on bull association work and better breeding practices at a meeting open for all dairymen at the Commercial Club rooms here in Grove City Thursday evening, Feb. 10, at eight p. m.

Mr. Brownell plans to make a little survey previous to his discussion so as to be able to analyze what bull association work has done for the community in the past. This should be of interest to all dairymen, as the information will be based largely upon local results.

ATTENTION

All Spanish War "vets" who have received invitations to the banquet should return their post card before Saturday, February 12.

IS THERE NO RELIEF FROM SKIN TORTURE?

Must I Continue to Suffer the Unbearable Itching?

Are you one of those unfortunates who are going through life suffering with a skin disease, making you uncomfortable, making you less efficient, interfering with your working hours, ruining your sleep? You may have tried many things without relief. Why not try S. S. S.? For more than 100 years it has been giving relief in many forms of skin disease. Thousands of letters of gratitude prove its worth.

"I feel so happy for what S. S. S. has done for me that I want others to know about it. I suffered twenty long years from eczema. At times the itching was unbearable. During that time, I used all kinds of salves without receiving any real benefit. After taking six bottles of S. S. S., I was cured of this dreadful disease. I recommend S. S. S. to anyone suffering from eczema, because I cannot praise it enough for what it has done for me." Cleophas Forte, Soldiers and Sailors Home, Quincy, Ill.

S. S. S. is purely vegetable. It is extracted from the fresh roots of medicinal plants and herbs and gives to Nature what she needs in building you up so that your system throws off the cause.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.
